OILCAKE.

At present prices of mill feed, Oilcake is the best value in the market. A practical dairyman of our county, operating a creamery of his own, assures us that one ton of Oilcake is worth more as a milk producer than three tons of Bran. He knows whereof he speaks, as we have sold him several tons this season.

Bran, Shorts, and Cracked Grain always on hand. Special quotations in Car lots.

LOCAL ITEMS.

A number of our sporting men are organizing a gun club.

There will be a meeting of the Mohawk Council next Wednesday.

The Varuna was hauled out at Pictou yesterday to get a new wheel.

Wm. Harvey has moved into Mrs. F. Clement's house, Prince street.

Napanee and Deseronto cricket clubs play a return match at Napanee today.

E. W. Scott attended the funeral of the late A. L. Morden at Napanee yesterday.

The man who rocks the cradle is a good fellow. The man who rocks a boat is a fool.

Great numbers of dead eel and menhaden are being washed ashore along Lake Ontario.

W. W. Keat succeeds Robt. Wiseman in the stores and coal department at the General offices.

G. E. Clement is building a house 18x24, with kitchen 12x24 for Miss Mary Geddis, Shannonville.

It only costs 5, 3-5 cents a day to feed each prisoner in Elgin County jail. The diet is good.

The Rathbun Company made a good display of their terra cotta material in the trade procession at Pictou last week.

Commissioner Harvey is macadamizing a portion of West Main street. This work will make a great improvement.

The congregation of Marysville contributed twenty-five dollars to aid the Nationalists in the recent elections in Ireland.

Rev. R. J. Craig and family are spending the summer months on the shores of the beautiful Lake Constance, Switzerland.

G. E. Clement has finished an extension 18x24 and two stories in height to the residence of F. J. Rogers, Green street.

Several thousand men are wanted in the Northwest to assist in harvesting operations. The C. P. R. carries them at nominal rates.

At Belleville on Tuesday thirty factories offered 2065 boxes of white and 110 of colored cheese. Only a few boxes were sold, the price being 7-5-4.

Division Court will be held at Shannonville on the 27th; at Deseronto on the 28th inst. Now is the time to settle that small bill at THE TRIBUNE office.

The streets committee have not yet taken action in the way of insisting upon residents cutting down burdock and other objectionable weeds in their gardens and yards.

There was a great rush to Bailey & Barnum's circus at Belleville last Saturday. The day was wet but the folk enjoyed the circus immensely. It was in all respects up to expectations.

Several improvements and additions have been made of late to the foundry and other works at Glenora. There is a fine new office. These changes have added to the appearance of this popular resort.

Miss Redner desires, through the columns of THE TRIBUNE, to tender her thanks to the people of Londale and the surrounding country for their very great kindness during the illness of her father, the late Dr. Redner.

Young men were stealing apples and other fruits in different gardens last week. A threatening shot fired by a resident of north St. George street gave some of them a great fright. They ran like antelopes in all directions.

Marshall Woodcock, was down in Mallorytown Thursday, July 25th. He witnessed a great halibut which broke windows in the cars, and threshed out barley and other grains in a most destructive manner.

O. E. Fraser, Grand President, J. K. Ryan, Grand trustee, and Dr. E. Ryan, medical examiner, of the C. M. B. A., have been invited to deliver addresses at Father Quinn's picnic at Marysville on Wednesday, 21st inst.

The elections for the British house of commons are now over and the returns show the following strength of parties: Conservatives 338, Liberal-Unionists 73, Liberals 117, McCarthyites 70 and Parcellites 12. The government has thus a majority of 152.

Reports gathered by the Dolgellville Herald relative to the hop crop in the central counties of New York state indicate that the average yield per acre will equal if not exceed that of previous years, but that owing to decreased acreage the aggregate yield will be less than in 1894.

The wheat crop of the Northwest, now ready for the harvest, passes all precedent. Conservative estimates put the yield of Minnesota and the two Dakotas at not less than 140,000,000 bushels, while there are predictions that it will exceed 175,000,000 bushels. It is said that Manitoba will give 35,000,000 bushels.

The members of Deseronto lodge of Oddfellows contemplate holding a big excursion in the near future.

Mrs. E. T. Miller, P.N.G., will represent Aberton lodge, Daughters of Belshazzar at the meeting of the Grand Lodge in Hamilton on the 13th.

Several St. George street merchants gave detectives in Kingston much assistance in running down two or three pickpockets at the circus last week.

George Brown, carpenter, Newburgh, was struck and instantly killed by a Grand Truck train, about a mile from Napanee last Tuesday afternoon.

One of the big willows near the locomotive shop, Mill street, collapsed under the gale of Wednesday. There are only two of these old landmarks left now in that locality.

Misses Ethel Vallee and Florence Stuart held a bazar on Tuesday which was well attended by the young folk. Mrs. G. E. Clement secured the quilt. The sum of \$5.95 was realized as a result.

About sixty of the delegates to the Grand Orange lodge visited the Holy Cross Cemetery at Halifax in order to see the grave of the late Premier, Sir J. D. Thompson, and pay a tribute to his memory.

The congregation of the Church of St. Vincent de Paul have wiped off the debt incurred by the purchase of their new cemetery in the short space of three months. The purchase money was one thousand dollars.

J. M. Smith and George Bradshaw with their families are camping out these times at a beautiful spot on the shore of Sophiasburg across the bay. They have made some big catches of fish and have already stored up a big stock of health and energy for future use.

The name of J. Callaghan, of Deseronto, appears in the Belleville newspaper among others who appeared in the police court charged with being drunk and disorderly. It is no doubt an assumed name. John Callaghan, of the Callaghan House, assures us that he was not at all in Belleville last week.

N. Clarke Wallace, M.P., has been re-elected Grand Master, and R. Birmingham, Grand Secretary of the Grand Orange Lodge of British America at its meeting in Halifax. A resolution was passed, only ten objecting, censuring the Dominion government for its stand on the Manitoba school question.

W. J. Geddis has taken his diploma as a graduate in shorthand and typewriting, of the Ontario Business College, Belleville, after a course of only two months and a half.

This is quick work as five months is generally required. It is doubtful if a diploma was ever so quickly secured before at that institution.

Messrs. C. E. Lyons, Louis Yomans, Wm. Campbell and George Campbell sailed down from Massanapa Park to Deseronto in the Isolanthe in 57 minutes, on Wednesday. The wind blew great guns but they managed their craft with great skill and coolness. They had to lay in port here as the wind kept up ever since.

The municipality of Deseronto enjoys an excellent reputation from a financial standpoint. It is practically free of debt, and all the taxes of former years are paid, a state of affairs not often found in Canada. It is the only municipality in Hastings which is not paying interest on back taxes. It is doubtful if there is another town in Ontario which stands as well in these respects.

The Sunday schools of Christ Church and All Saints will picnic in the Mohawk park grounds next Wednesday, August 7th. The schools are in a prosperous condition, the attendance being over ninety. A grand time will be spent at the annual event. There will be games and sports including tug-of-war. There will be refreshment stands on the ground. All are invited.

The burdock is a biennial plant which seeds the second year and then dies. If the seedling is prevented by cutting the plant now or any time before the seed is formed, there will be no seed of it. The quickest way to manage weeds of this kind, including others like the wild carrot, mustard, docks, etc., is to move them early in the summer, and thus prevent seeding, or to cut each two inches below the ground with a spud.

Messrs. Allen, Hatch and Stafford went out fishing the other day and caught a large number of fine fish. They left several beauties in the boat house but when they returned to get them all were gone. They are on the war path after the marauders. The boarders at the Deseronto house say they enjoyed some splendid bass for breakfast the other morning. This may serve as a clue.

Rev. A. M. Smith, who filled the pulpit of the Presbyterian church last Sunday, passed some of his boyhood days in Deseronto, being a son of Abijah Smith, of Smithfield, formerly of Deseronto. He passed a very creditable career at Toronto University, and Knox College, Toronto, and subsequently at the Theological Seminary, Auburn, N. Y. He is now pastor of an important congregation at Pittsford, a suburb of Rochester, N. Y. He will again preach in the Presbyterian church next Sunday.

The prolonged depression in business has taught all the necessity of economy. It is evident, however, that many have not yet put into effect their resolutions in this respect. The coming winter, it is generally thought, will be of a trying character. In many parts of Ontario, hence the necessity of all taking time by the forelock and thus being prepared. Young folk especially should be prudent and thrifty, regularly placing some of their weekly earnings in the savings bank.

A Close Call.

Douglas Powles and Frank Smith had a narrow escape from drowning, their boat having been upset while out sailing on the bay last Sunday.

Notice.

A meeting of Court Deseronto, No. 93, I. O. F., will be held next Monday evening, Aug 5th, at 8 o'clock. Every member is requested to be present.

Elocutionary.

The Courier, in an account of a lawn social recently held at Trenton, states that Miss Tottie Hall, daughter of J. M. Hall of Deseronto, recited two pieces in a most masterly manner, with expression, gesture and inflection equal to any professional.

Shannonville Fair.

The annual fair of the Tyendinaga Agricultural Society will be held at Shannonville on Saturday, Sept. 28th. This event is always looked forward to with very much interest. The directors will make every effort to make it a great success. All parties wishing information should write to A. McFarlane, Secretary, Melrose.

Forty-Seventh Anniversary.

Tuesday, July 30th, was the forty-seventh anniversary of the ordination of Rev. G. A. Anderson, M. A., the venerable missionary of Tyendinaga Reserve. He was ordained at Hamilton by Bishop Strachan, of Toronto. It is a remarkable fact that he was also baptized and confirmed by the same distinguished prelate.

Cannot be shaped in time.

The granite to be used in the base of the statue to be erected to the memory of the late Sir John A. Macdonald at Kingston, will weigh about thirty-seven tons. It is being quarried at St. George, N. B. The stone will not arrive in the city in time to permit the contractors to have the monument erected so that it can be unveiled on labor day. The ceremony will not take place until October.

Combine Busted.

The combine which has existed between the Napanee bakers has at last been broken, and bread is again down to ten cents a loaf.

An industrious market square merchant who has been selling the necessary "staff of life" at ten cents a loaf was refused any more to sell at that price, but not to be outdone has since purchased his bread from a Deseronto baker, having the same brought down by stage, and has been enabled to sell it at nine cents.—Napanee Beaver.

Lame Apology.

The good natured editor of the Ontario endeavors in a half hearted way to defend the Belleville police from the imputation of criminal negligence in the management of the Bishop robbery. The article however is self contradictory as it clearly states that they did nothing but give Bishop a little useless advice. The fact is that the Belleville police in this matter did not communicate with Chief Gunyon and made no honest effort to recover the money.

An investigation by the proper authorities would show this clearly.

An Old Copy.

A. B. Randall, of Shannonville, clerk of Tyendinaga township, showed us a copy of the General Evening Post, of London, England, which was printed Oct 8th, 1793, and is over one hundred years old. It has been in possession of Mr. Randall's family for over 65 years. The war with the Great Napoleon was then raging and there are many references to military events. The new woman was to the fore in those old days, as the Post was published by Mary Vent and sold by Jane Bow. There is nothing new under the sun. A newspaper stamp is affixed, showing that the objectionable tax was then in existence. It is a valuable old relic of the last century.

Court of Revision.

Judge Fralick held a court of revision in the town hall for the purpose of considering appeals from the town assessment. The principal appeal was that of the Rathbun Co. in reference to the assessment of \$100 per acre on certain farm lands north and west of the town. The company hold that under the act of 1892 these lands could only be assessed as farm lands even though they were within the town limits. Judge Fralick upheld this view and the valuation of the lands was then entered into. Messrs. Randall and McGuinness, clerks of Tyendinaga and Richmond, produced assessment rolls of their respective townships which showed the lands in question were assessed at an average of \$40 per acre. John McCullough and Thos. Gault gave evidence in reference to the character of the lands, and Mr. McCullough gave estimates on the value of farm lands in this district, showing a great depreciation during the past few years. The judge accordingly reduced the assessment to \$50 for the lands north and west of the town and about 245 acres being affected by the change. The income assessment of Wm. Irvine and A. A. Richardson were also taken up. These gentlemen had appealed because, as they alleged, they and others were singled out for this tax while the assessor had allowed others to escape. The judge said it was unfair if the assessor had done this, but he could do no more than reduce each to \$300 from \$500 as first levied. Several clerical errors on the roll was also corrected. W. H. Biggar, J. H. Madden and Geo. Deroche, baristers, took part in the proceedings.

Catarrh in the Head

Is a dangerous disease because it is liable to result in loss of hearing or smell, or develop into consumption. Read the following:

"My wife has been a sufferer from catarrh for the past four years and the disease had gone so far that her eyesight was affected so that for nearly a year she was unable to read for more than five minutes at a time. She suffered severe pains in the head and at times was almost distracted. About Christmas, she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has taken six bottles of Hood's Sarsaparilla and is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it."

W. H. F. FARMER, Newmarket, Ontario.

IS PARALYSIS CURABLE.

MR. GEORGE LITTLE, OF ESSEX COUNTY, SAYS IT IS.

HE GIVES HIS OWN TERRIBLE EXPERIENCE TO PROVE THE TRUTH OF HIS ASSERTION—OFFERED FOR OVER TWO YEARS—BOTH HIMSELF AND FAMILY THREATENED WITH DEATH—COULD END HIS SUFFERINGS—AGAIN ENJOYING THE BLESSING OF SOUND HEALTH.

Life is truly a burden to those not blessed with a full measure of health and strength, but when a strong man has been brought to the verge of almost utter helplessness, when doctors fail, and there is apparently nothing left to do but wait the dread summons that come but once to all, the case assumes an aspect of extreme sadness. In such a condition as this did Mr. George Little, of the township of Colchester North, find himself and recently the Free Press bearing incidentally that he had recovered health and strength, a reporter was able to investigate.

When seen, Mr. Little expressed a willingness to state the nature of his case, and his story is as follows—

"I was truly a burden to those not blessed with a full measure of health and strength, but when a strong man has been brought to the verge of almost utter helplessness, when doctors fail, and there is apparently nothing left to do but wait the dread summons that come but once to all, the case assumes an aspect of extreme sadness. When seen, Mr. Little expressed a willingness to state the nature of his case, and his story is as follows—

"I was truly a burden to those not blessed with a full measure of health and strength, but when a strong man has been brought to the verge of almost utter helplessness, when doctors fail, and there is apparently nothing left to do but wait the dread summons that come but once to all, the case assumes an aspect of extreme sadness. In such a condition as this did Mr. George Little, of the township of Colchester North, find himself and recently the Free Press bearing incidentally that he had recovered health and strength, a reporter was able to investigate.

LOOK OUT FOR THEM.

Farmers in the vicinity of Lindsay, have been victimized by peddlers of stove, which articles they have had forced upon them through the bait of snap bargains and easy terms of payment. The whole affair, however, turns out to be a fraud. The stove may be purchased for half the price from any regular dealer, and the agreement signed to pay on the installment plan proves to be a note at thirty days.

ARE YOU DEAF

Or do you suffer from noise in the head then send 3 cent stamp and I will send a valuable treatise containing full particulars for home cure which costs comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

SUDDENLY ATTACKED.

Children are often attacked suddenly by painful and dangerous Colic, Cramps, Diarrhoea, Dysentery, Cholera Morbus, Cholera Infantum, etc. Dr. Fowler's Eucalypti, only length of line, as well as for comfort, that women instinctively turn to the low chair or stool.

Why Women Choose Low Seats.

One of the things that no man ever will or can understand is that women invariably choose the low chair, the low stool, the low seat, selecting for solid comfort one that is about six inches from the floor. Schopenhauer's contemptuous allusion to them as the "short-legged sex" generally occurs to him as the final solution of the problem, even though he be too polite outwardly to hint at such a thing. The explanation is the reason, according to a bright little artist. Women, she says, seem to know intuitively when they are looking tired, that they must secure this chair, which happens when they are sitting on a chair sufficiently high to make the feet dangle stiffly downward, barely reaching the floor. In all the celebrated pictures of sitting feminine figures, the line from the waist to the knee is elongated as far as possible, and the feet are placed on a box of the same height of line, as well as for comfort, that women instinctively turn to the low chair or stool.

A REMARKABLE CURE.

J. W. Jenson, Gilroy, spent between \$200 and \$300 in consulting doctors; tried Dixon's and all other treatments but got no relief. One box of Chase's Catarrh Cure did me more good than all other remedies, in fact, I consider myself cured and with a 25 cent box at that.

An eel over five feet long was caught in Otty Lake near Perth.

DID YOU EVER THINK.

That you cannot be well unless you have pure rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla. It is in truth, the great blood purifier.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

Hot weather proves depressing to those whose blood is poor. Such people should enrich their blood with Hood's Sarsaparilla.

MOST INVALUABLE.

THE NEW SPECIFIC REMEDY IS BEING EXTENSIVELY USED AT OTTAWA.

OTTAWA, July 29.—The marvellous recovery of Mr. G. H. Kent, of this city from Bright's disease by the use of Dodd's Kidney Pills is still fresh in the memories of Ottawa people, and the remedy is being freely recommended both by druggists and private citizens. The stellar wonder of Dr. A. G. McCormick, of Richmond, Quebec, and of Mr. Arthur Coley, of Somerset, Manitoba, to say nothing of cases of kidney trouble. It was proving itself invaluable in the milder forms of sickness which appear during the summer.

A big saw mill of the St. Anthony Lumber Company at Whitney cuts 250,000 feet a day. It is 207 feet long and 40 wide and cost upwards of \$200,000. It is now cutting steadily.

DR. FOWLER'S

Extract of Wild Strawberry is a reliable remedy that can always be depended on to cure Cholera, Cholera Infantum, Colic, Cramps, Diarrhoea, Dysentery, and all looseness of the bowels. It never fails.

NO OTHER REMEDY.

No other remedy cures Summer Complaint, Diarrhoea, Dysentery, etc., so promptly. Extract of Wild Strawberry. It is a pocket doctor for tourists, travellers, etc.

Gough

THE WONDERFUL CHEAP MAN.

Always Good at GOUGH'S.

They Came, They Bought, as They Never Bought Before!

And still they come, and still they buy. Busy yesterday—busier to-morrow. We have to "hustle" trying to get every customer served quickly and properly. Straw Hats, Summer Shirts, Summer Underwear, Summer Clothing and Summer Neckwear were most in demand. But we have the goods this season—as we always have—and we are selling at very close prices—as we always do. That's why we have your trade. We want your trade, and we know that the right way to get and keep it is to have a good variety of everything and to sell cheap—cheaper than anybody else.

Our Summer Campaign.

Our summer Campaign for business is carried on on business principles—keeping the best Clothing for the best money. We are just far enough away from Farkerville to consider living a pleasure. Merchants all over Canada are trying to figure out where we get goods to sell so cheap. Sometimes they club together and petition manufacturers not to sell us, and sometimes they swear the goods are not as represented, and sometimes they buy the goods to sell again.

Success hasn't come by chance. This business has grown because you wanted it to. Your encouragement gave us the right to go ahead.

Men's Summer Clothing.

We have sold an immense quantity of clothing thus far. Come and see what we can sell you in Light summer Coats and Cool Vests, Sporting, Camping and Vacation Suits, etc.

200 Men's Suits in Sack Tweeds have been marked \$8.45 and \$9.50, but they have been knifed and 5 dollars tees any. Fine English unshrinkable flannel coats and vests, striped and check, all sizes, \$3.

Fine French Lustre Coats and vests in stripes and plain effects, various shades, \$2.50.

Fast Black Lustre Coats, all sizes, silk finish, \$1.75.

Blazer Coats, 75c. \$1.50, \$2.

German Lustre Coat in black or grey, all shades, \$1.

Men's White Duck Trousers, the sort American Tourists are wearing, two qualities, \$1.40 and \$1.75. Shapely and swell.

Men's White Duck and Pique Vests, pearl detachable buttons, all sizes, 75c.

10 doz. English Cashmere and silk Fancy Vests, washable, mother-of-pearl detached buttons, worth \$1.50 for \$1 each.

Boys' Summer Suits.

NO. 47

Anything we can do for You?—We address this question to every reader of this paper, whether they live in Kingston or a hundred miles away from it. We are selling Dry Goods—not only dress stuffs—but dry goods of many kinds. Ours is a store of many departments, each of them under the guiding hands of experts in their line. The store is conducted on a modern scale and offers the buyer every inducement any metropolitan concern can offer. There are no goods made that are any better than the lines we carry. There are no prices quoted on first-class stock lower than ours.

Dry Goods by Mail.—We offer out-of-town folks superior advantages for buying by mail. We execute every order entrusted to us promptly, carefully and faithfully. People living many miles away can shop with us as pleasantly and profitably as the people who come to the store.

Send us your orders for anything you may need. State explicitly what you want, and if it is not in our stock we will make every endeavor to get it for you.

DEMARESTVILLE.

Edward Gordon still continues very low. There was a large attendance at the Quarterly service held in the Methodist church last Sabbath.

There is to be a picnic in connection with the two Sabbath schools here with that of Big Island, on Thursday, to Twelve O'Clock Point, a fine time anticipated.

Miss Jennie Marsh, of Deseronto, is visiting Mr. and Mrs. George Baker for a short time.

Which way will the Doctor go now. Dr. Pearson's brother from Toronto is visiting here for a few days.

It is a pity that our council men cannot see the start our sidewalks are getting into as it would save trouble to repair them now.

MARYSVILLE.

Messrs. Thos. and Jas. Hanley of Belleville, were the guests of Thos. McGowan on Sunday. Miss Katie Jones, of Cleveland, is visiting friends here.

On Tuesday last, Jas. Anderson started for Onabrock, North Dakota, where he intends to remain for some time. As he was a general favorite with both old and young, his many friends greatly regret his sudden departure, but wish him every success in his new life. Ed. McNeil returned to his home in Dakota on the same day.

Miss Mary Evans was the guest of Miss Jennie Ryan last week.

T. Driscoll spent Sunday at the guest of W. Roach, Napanee Road.

Miss Mabel Ryan spent a few days at her home this week.

WESTBROOK.

We have lately enjoyed several good showers and the prospect of a moderate grain harvest at last have materially improved.

Mr. and Mrs. Hiram Smith intend leaving on Thursday to spend the winter with their daughter, Mrs. Roughton, in the States.

Miss McDonald after an absence of five years in Philadelphia is renewing old acquaintances here.

The Free Methodists have engaged Ashley's hall for their services.

Joseph Sproul, Sr., is seriously ill.

We are sorry to lose our esteemed neighbor Miss Mary Howie, the having moved to Elginburg.

F. Selwick just finished a trip around the world, is a visitor at Mr. G. G. Galloway's.

Miss Harold, Kingston, at S. Patterson.

D. J. Smith, dentist Chicago, at A. Smith's.

Mrs. Veagher, Marysville, spent Wednesday last at the home of her parents, Mr. and Mrs. M. Sheehan.

J. Gardiner at N. Leonard's.

FRONT OF THURLOW.

Aug. 5.—The weather for the past week has been very cold.

James Bannett started out with his threshing machine last week. He reports the yield of grain to be above the average.

Robert McDonald, of Point Anne, is serious.

Some of our young people enjoy sailing very much.

Miss Louie Wickert is visiting friends in Belleville.

A number of people intend going to Manitou on the excursion.

Miss Mabel Clark has been visiting friends in Belleville during the past week.

Mrs. Anna Gibson, of Belleville, is visiting her uncle, Arthur Cooper.

We are glad to see the smiling countenance of Arthur Bannett around again.

Rev. Mr. Saunders had what might have been a serious run last week. He was being to Point Anne when his horse became frightened at a steam thrasher and started to run away upsetting the buggy and throwing him and his daughter out. Fortunately neither were hurt and no damage beyond breaking the top was sustained.

Samuel Geddis lost a valuable cow last week.

Miss Mary Geddis has started work on her new house in Shannonville.

BETHEL.

My friend Boulter, of Toronto, is visiting her many friends in this country.

Recently interred in the cemetery near the church, Mr. A. Way was at the 1000 Island over Sunday.

The Deseronto and Northport Sunday schools are to exchange on Thursday next to 12 O'Clock Point, when if the day is fine a pleasant time is looked for.

Mr. and Mrs. A. Newman, and Mrs. Phillips, of Toronto, are taking a vacation here.

Mrs. Will Parks, of Rochester, N. Y., is spending a few weeks here.

Mr. C. G. Galloway and Miss Potter, both of Southampton, were married last week; we offer our best wishes for future happiness.

Miss Morden, of Deseronto, is visiting Mrs. E. Crawford.

Mr. and Mrs. Becker, of Brighton, are guests of Mr. and Mrs. G. Galloway.

Mr. and Mrs. Alv. Scott, of Cherry Valley, were here over Sunday.

Miss Mabel Foster, of Fish Lake, is visiting her sister, Mrs. Robinson.

There is a green worm destroying the hop vines in this country. They eat the leaves and leave the vine completely bare. Some yards are entirely gone and others are being destroyed as fast as the devastators can do it. It only takes a few days when they begin in a yard until they go through it and eat every thing clean.

MOSCOW.

The heaviest electric storm this season port over here Tuesday. We have not yet heard of any damage being done in this vicinity.

The farmers are now complaining of too much rain. They cannot get their grain harvested from showers. A short time ago it was too dry for them now it is too wet. We are never satisfied.

Grain is an average crop in this section, and corn and potatoes promise to be above the average.

The Methodist church was re-opened on Sunday, July 28th, after being remodelled. It looked fine. Rev. G. S. White, of Napanee, preached in the morning and evening to large congregations. All were pleased to meet him as he travelled this circuit about thirty years ago.

Great sympathy is felt for Mr. and Mrs. Milton Huffman in the loss of their little son, Arthur, who died recently.

The dwellings of Messrs. E. Vanhulst and J. S. Bell are nearing completion. They will be a great improvement to the village.

GRENA.

Farmers around here find themselves in a different position to other years since the haying and hoeing are got through with. The grain since the rains is coming up very slowly and the acreage in the morning and evening crops and barley are housed in fine condition, peas and oats are later. The crops will not be so bad as expected, they will be a fair average, while potatoes, corn and all vegetables will be extra good. The pasture suffered the most through the dry weather but since the rain it is a fine growth and plenty and flies are the only drawback to stock at present.

Last Sunday the quarterly service was held at this church. Rev. Mr. Snowden preached, assisted by Rev. James Wilson, of Colborne, who is well thought of at this place. The choir was led by Prof. Phillips, of Napanee; the congregation was large and very attentive throughout.

The Sunday school is well attended. There has been some talk of making the near future as others wish to join and make it pleasant for all.

We are sorry to hear of Mr. James Hambley being confined to his bed by sickness; we hope he may be spared and around again.

Mr. Charles Hough has the stumpster clearing up his farm.

Mr. Wesley J. Mellow, of Enterprise, has been visiting his father, W. J. Mellow.

Miss Hough, of Silville, at Ella Mellow's and other friends in this neighborhood during the past week.

Mr. McWain has started with his thrasher again and reports grain yielding well.

DEATH OF J. J. DOYLE.

James Doyle, a well known and respected resident of Richmond township, died from consumption at his residence, 7th Street, Deseronto, on Saturday.

Deceased, who was thirty-five years of age, was the son of John Doyle, of Richmond, was decessed held in high esteem by all who knew him.

He was a member of the Church of England and was ever ready to aid any church work. He was a successful member of the Orange order and in politics a Conservative, his party being under great obligations to him for valuable service.

For some time he acted as assessor for Richmond township and had frequently been invited to represent the ratepayers in the council, as however, which was never declined.

He was agent in his district for Noxon Bros., manufacturers of agricultural implements. His wife died about two years ago and he is survived by two children, a boy and a girl, aged four and six years, respectively. Deceased was a brother of A. W. H. Doyle and the Misses Doyle, of Deseronto.

The funeral took place on Monday forenoon and was one of the largest ever seen in this district, over one hundred riders being in the procession which was over a mile in length. The bearers were: Jas. McCullough, Jas. Killorin, C. S. McBride, Thos. Fennell, Wm. Ballance and Robert Ballance. After devotional services at the house the casket was conveyed to the Selby church where Rev. Robt. Atkinson presided the funeral service, the remains being subsequently interred in the cemetery near the church. The funeral arrangements were under the direction of Mr. Dart, of Deseronto.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the best medicine I have ever found that would do me any good." Price 50c. Sold by W. G. Egar.

DEATH OF MRS. W. W. SWITZER.

The subject of this sketch was born in Camden East, June 12th, 1848, and died in Ayr, N. B., on Tuesday, July 1st, 1895, at fifty-one years, one month and thirteen days. She was the daughter of Aaron and Margaret Carnahan, both of whom are dead. Her father died in 1884, when she was in Deseronto. She has a stepmother, one sister and two brothers living there now. In August, 1861, she was married to W. W. Switzer, of Camden, in which place she lived till 1863, when she, with her husband, moved to Parham. She resided in that place till the spring of 1884, when they moved to Adam, N. Y., where Mr. Switzer purchased a home and where she died. Seven children blessed their union, six of whom are now living, four boys and two girls. The funeral was held from her late home, Saturday, July 27th, at 10 A. M., by the Rev. J. E. Smith, of which she was a loyal member, officiating. Her remains were laid to rest in Elmwood cemetery.—Kingston Free Press.

SUBROGATE COURT.

Timothy O'Reilly, late of Hunsford, plaintiff, vs. Peter Murphy and Mr. T. H. Deane, executors, Estate of C. W. O'Connell, deceased.

On the 2nd day of August, 1895, at 10 A. CRICKET MATCH.

A return cricket match between the eleven of the Deseronto and Napanee clubs was played at Napanee on Friday, 2nd inst., resulting in a victory for the Deseronto club by five wickets, the defeat of a few weeks since being thus wiped out. The game which was watched by many spectators, was well contested and there were several exhibitions of good play by both sides. Napanee went to the bat first and in the first innings secured 93 runs of which Richardson, by careful play, secured 41, Poitras 14 and Egar 11. Napanee followed in its second innings but was speedily retired with only 25 runs, Maybee with 13 having the only double figures. Deseronto followed and secured the necessary complement with five wickets to spare, Poitras alone contributing 15.

DESERONTO—FIFTH INNINGS.

Deseronto has won every match thus far this season except one.

Capt. Allum, of the Deseronto eleven, carried off the honors, having the noble score of 42. He batted with great care and steadiness.

Deseronto has probably the best eleven in Ontario east of Toronto.

Poitras did splendidly, 14 in the first innings and 15 in the second.

Egar walked off with a neat 11 in the first innings.

Allum and Crooke bowled well for Deseronto; and Merritt translated efficiently for Napanee.

A left-handed catch by Allum was a thing of beauty.

Richardson with 41 and Merritt with 27 did great work for Napanee.

Deseronto fielded with great alertness in the second innings of Napanee. The feat of THE THIRDS was a great success.

Some of the boys had hard luck but such is cricket.

Napanee boys were hospitable as usual.

H. R. Bedford and Mr. Pruyn upheld the game most satisfactorily.

WITH THE SWEETNESS OF MELTING FOAM.

Fragrant Ivory for the teeth dissolves in the mouth. A delightful preparation for the teeth, which cleanses, whitens, and preserves the teeth to the last, and is efficient beyond the desire of the most exacting. A dream of elegance and efficiency for the white and breath as sweet and fragrant as that of flowers.

ST. MARK'S CHURCH NOTES.

On Sunday evening the sermon will be especially addressed to young men. All will be welcome.

A meeting of the Brotherhood of St. Andrew was held on Wednesday evening at the residence of the Directors, Mr. Lloyd. A very pleasant work was accomplished.

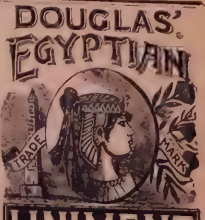

The leadership of the choir has been resumed by H. G. Egar.

Part of the pulpit preparation will soon be made for the annual Harvest Thanksgiving service in September.

Rev. W. W. Lewis, the former rector of Prescott, and Mrs. Lewis, are visiting at the Rectory.

Service on August 11th will consist of Evening Prayer, shortened, and a reading.

DOUGLAS' EGYPTIAN LINIMENT

WORTHY OF NOTE AND SHOULD BE IN EVERY HOUSEHOLD AT THIS SEASON OF THE YEAR.

Douglas' Bro. & Co., Napanee: On February 8th, 1895, I met with an accident freezing my feet. Our physician told me to get the liniment. I got a bottle of Douglas's Egyptian Liniment, which he had only advised me to have used, and allowing any portion of my feet to be amputated, also sending me a copy of letters of the testimonials of Douglas's Egyptian Liniment confidence in the Liniment and had it used. When all the frozen flesh dropped off, the foot began to show signs of improvement and advanced wonderfully and continued to me from being horribly crippled for life. I can never repay your kind and kind and shall never forget the name of Douglas's Egyptian Liniment. I trust, as long as I live. Respectfully yours, MRS. JOHN MARKS. Cameron, Fenton St., Oct. 24, '93.

OBITUARY.

John B. Smith died at the residence of his son-in-law, E. T. Davey, Mill street, Saturday, 3rd inst., aged 69 years. Deceased was born in North Fredericksburg and lived the greater part of his life at Belleville, Napanee and vicinity. He had been ill since a attack of la grippe some time since and on June 28th suffered a hemorrhage and afterwards sank rapidly. It will be remembered that his wife predeceased him some years since. He is survived by two sons and one daughter. The funeral took place on Sunday afternoon; religious services were conducted by Rev. J. H. Collett at the late residence. The remains were moved for interment in the Napanee cemetery.

A very violent electric storm passed over the district last Tuesday afternoon and did much damage in its progress. The lightning was very vivid and one crash of thunder was one of the very loudest. The electric fluid struck the brick house owned by Thos. O'Neill, corner of Dundas and Mill streets. A new chimney will have to be built. The loss was settled by the insurance company.

The man that penned the following knew just exactly what he was talking about: A newspaper is always printed in a rush. There is always something in that should have been left out, something left out that should have been put in. It is sometimes too quick to act, but with all its faults and shortcomings there is more education in a bright, new paper than there is in a novel.

You will find the brightest boy on practical, sensible every day questions, is the boy who reads the newspaper. —Press and Printer.

One use for paper is for the padding of the backs of gentlemen's waistcoats. No one knows why the stupid practice is persisted in of making the back of a waistcoat of this material, in spite of the fact that the lungs need as much protection at the back as they do at the front. Thin-backed waistcoats are a positive invitation to pneumonia during the prevalence of bitter cold and easterly winds, but a quilt of paper in the lining will make the back even warmer than the double breasted front.

The more enthusiastic Ontario sportsman, not satisfied with his deer hunting, has been looking forward to 1895 when he could penetrate still further into the woods and reach the haunts of the moose, reindeer, elk and caribou, and feast his eyes upon the most wild and noble animals, but he must possess his soul with patience, for the last session of the Ontario Legislature amended the Game Act by extending the prohibited season from 1895 until 25th Oct. 1896, so that these animals may not be shot for five years longer.

L. H. Bennett, Thomas street, is the owner of a herd of six handsome and valuable Jersey cows, which yield a large quantity of the richest milk. They are greatly admired by our townpeople. Mr. Bennett is very proud of his herd. He recently sold a thorough bred calf to J. C. Hanley, of Read, He has had his barn improved lately, the floors being raised and the improved cattle stanchions, manufactured by the Kitchin Company, and used on the farm, have been added. These stanchions are a great improvement as they give almost complete freedom to the animals,

NEAR THE DARK VALLEY

A YOUNG GIRL RESCUED FROM AN EARLY GRAVE

PALE, LITTLE AND WEAK, THE VICTIM OF A HAWKING GUN, SHE WAS APPARENTLY

GOING INTO A RAPID DECAY—A CASE OF DEEP INTEREST TO EVERY MOTHER IN THE LAND.

It is now a common thing in this locality to see people who have been rescued from the clutches of the underworld.

Dr. Williams' Pink Pills, and it is not to be wondered at that the results of the use of this remarkable medicine so large and yet so constantly increasing.

We could give you a number of testimonials of medical results following the use of Pink Pills, but so many of these are well known to many of our readers as to need no repetition.

How and again a case of more than usual interest arises, and we will give the particulars of one of these for the benefit of the public at large.

Some years ago a young girl of 14, a daughter of Mr. Leon Dor, a well known and respected resident of Dorset, began to show symptoms of deep and rapid decay.

She was just at the critical period of her life, and medical aid was called for, and everything done to help her. But it appeared

to be useless, and for week after week she continued to grow weaker, until it was evident she was fast going into decline.

A hacking cough set in, and the poor girl, who was formerly plump and healthy looking, with bright rosy cheeks, began to waste away, and in a few months was merely a shadow of her former self.

Her mother had about lost all hope of saving the young girl's life, the doctors being apparently unable to do anything to check the ravages of the material disease.

At length the mother's attention was directed to Dr. Williams' Pink Pills, and she decided to give them a trial.

A box was taken, and on the first day the girl began to show signs of improvement, her mother was on the point of discontinuing the medicine when a neighbor persuaded her that a single box was not a fair trial, and induced her to continue the Pills.

By the time a second box was completed there was some improvement noticeable and there was joy in that small household, and no more persuasion was needed to continue the treatment.

The use of the Pink Pills was then continued for some months, by which time the young girl had completely recovered her health and strength.

To-day she is the very picture of health, and the color in her cheeks is as bright as it was before she was taken down.

INDEPENDENT ORDER OF FORESTERS

The Supreme body of the Independent Order of Foresters, met in biennial session in London England, on Thursday Aug. 1st, at 2 p.m.

Over 100 officers and representatives were present. All the Foresters of the Dominion, and some twenty of the States of the Union, and England, Wales, Scotland and Ireland were represented.

Dr. D. A. S. C. H. presided. The S. C. H. read his report, a lengthy and able document. From it we give the following facts:

The address began by a grateful acknowledgment of the kindness to the Order and its members of the Supreme Order of the Universe. It said that since the last meeting, two years ago, the membership had increased over 200,000, being now 700,000.

The surplus had increased by \$1,331,300.75. The proportion per member has been steadily increasing, and is now \$300 per member more than it was five years ago.

Reference was made to the decision of the Supreme Executive to invest a portion of the surplus in the Foresters' Temple, which will in future be the Headquarters of the Order.

Reference was also made to several proposed amendments to the Constitution, among which were the striking out of sections referring to the expectation of life, and increasing the rate between 45 and 50, and the holding of triennial sessions, and the admission of women into the Order.

The Supreme Chief Ranger closed his report, with a grateful acknowledgment of the honor conferred upon him, and the kindness shown him, ever since he had been the Executive of the Order.

The Report of the Supreme Secretary was an elaborate document, and gave a detailed statement of all receipts and disbursements since the last meeting.

The interesting information obtained was the fact that since the Chicago meeting two years ago, the number of life members had increased from 21 to 23, and the number of Subordinate Courts from 1,430 to 2,100, and the membership from 59,847 to 80,765.

The deaths during the past two years have been 681. The amount paid in Death and Permanent Cashless claims in the past two years was \$100,175.

The Sick and Funeral Benefit department showed marked prosperity, and it is enrolled about one-third of the membership. During the past two years \$10,118.00 had been paid in Sick and Funeral Benefits, leaving the surplus to the credit of this department, on the 1st of July, \$20,150.00.

Dr. Milman, Supreme Physician, gave an exhaustive and interesting summary of the work in his department. It showed that for the eighteen months ending December 31st, 1899, the number of life members had increased from 31,370, for insurance amounting to \$30,100,000.

For the same period there had been 1,175 deaths, and the average age of the member is only 34.92, as compared with 35.31 for 1893. The death rate has been remarkably low, 5.47 per 1,000.

In a supplementary statement giving the results of the examinations for the past two years, of 1899, it appears that 16,835 examination papers were reviewed, of which 13,175 were accepted, making a total for the two years, of 34,140 applications received, of which 5,729 were rejected.

The salary of the supreme chief ranger was fixed at \$3,000 yearly, that of the supreme secretary at \$2,000 yearly, and that of the supreme treasurer at \$2,000.

The auditor's salary was fixed at \$1,000 per year, and the salary of the supreme physician at \$1,000 per year.

The following officers were elected for the ensuing term: S. C. R., Oronchayakha, M. D.

Gough

THE WONDERFUL CHEAP MAN.

Always Good at GOUGH'S

They Came, They Bought, as They

Never Bought Before!

And still they come, and still they buy. Busy yesterday

—busier to-morrow. We have to "hustle," trying to get

every customer served quickly and properly. Straw Hats, Summer Shirts, Summer Underwear, Summer Clothing and

Summer Neckwear were most in demand. But we have the goods this season—as we always have—and we are selling at

very close prices—as we always do. That's why we have your trade. We want your trade, and we know that the

right way to get and keep it is to have a good variety of everything and to sell cheap—cheaper than anybody else.

Our Summer Campaign.

Our summer Campaign for business is carried on by business principles—keeping the best Clothing for the best money.

We are just far enough away from Fakerville to consider living a pleasure. Merchants all over Canada are trying to figure out where we get goods to sell so cheap. Sometimes they

club together and petition manufacturers not to sell us, and sometimes they swear the goods are not as represented, and sometimes they buy the goods to sell again.

Success hasn't come by chance. This business has grown because you wanted it to. Your encouragement gave us the right to go ahead.

Men's Summer Clothing.

We have sold an immense quantity of clothing thus far. Come and see what we can sell you in Light summer Coats and Cool Vests, Sporting, Camping and Vacation Suits, etc.

200 Men's Suits in Sack Tweeds have been marked \$8.45 and \$9.50, but they have been knifed and 5 dollars takes any. Fine English unshrinkable flannel coats and vests, striped and check, all sizes, \$8.

Fine French Lustre Coats and vests in stripes and plain effects, various shades, \$2.50.

Fast Black Lustre Coats, all sizes, silk finish, \$1.75.

Blazer Coats, 75c. \$1.50, \$2.

German Lustre Coat in black or grey, all shades, \$1.

Men's White Duck Trousers, the sort American Tourists are wearing, two qualities, \$1.40 and \$1.75. Shapely and well.

Men's White Duck and Pique Vests, pearl detachable buttons, all sizes, 75c.

10 doz. English Cashmere and silk Fancy Vests, washable, mother-of-pearl detached buttons, worth \$1.50 for \$1 each.

Boys' Summer Suits.

Boys Galatea Suits, fast colors, all sizes, sailor collar, 90c.

"The Triumph of Love"

S. HAPPY, FAITHFUL MARRIAGE.

EVERY MAN WHO WOULD KNOW THE GRAND TRUTHS OF THE FAITH FACTS OF THE DISCOVERIES OF MEDICAL SCIENCE AS APPLIED TO MARRIED LIFE; WHO WOULD AVOID THE PAIN OF BARRIERS AND AVOID FUTURE PITFALLS, SHOULD SECURE THE WONDERFUL LITTLE BOOK CALLED "COMPLETE MARRIAGE AND HOW TO ATTAIN IT."

"Here at last is information from a high medical source that must work wonders with this generation of men."

The book fully describes a method by which to attain full vigor and manly power. A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, dependency, etc.

To exchange a faded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion of the organs of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is purely medical and scientific, useless to curiosity-seekers, invaluable to men only who need it.

A despairing man, who applied to us soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug every body and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIC MEDICAL COMPANY, Buffalo, N. Y., and ask for the little book called "COMPLETE MARRIAGE." Refer to this paper and the company promises to send the book, in sealed envelope, without any mark, and entirely free, until it is well introduced.

ADDRESS AND PRESENTATION.

A pleasant episode occurred at the Cedar Mill on Wednesday afternoon. Mr. Dart, the late superintendent was invited to the mill and there, to his utter surprise, immediately after the whistle blew for six o'clock, he was held up and in the presence of the assembled workmen presented with a handsome silver watch set, accompanied by a flattering address. The address was read by James Wright and Ed. Lowmy made the presentation. The set consisted of a silver watch, gold lined case and a beautiful key and was purchased from G. E. Seider. Mr. Dart replied in suitable terms. We give the address and repeat with respect for themselves.

THE ADDRESS.

Mr. D. W. Dart.

Sir.—We the employees of the Cedar Mill, desire to express the deep regret which we all feel on account of your retirement from the position of Superintendent that you may give your undivided attention to your private business.

We very willingly bear testimony to the fact that the ability which you possessed in the position of Superintendent of this large mill, and the pleasant and cordial relations which have always existed between yourself and the men connected with the mill, whatever might be their creed or nationality. While thus considering for the employees we also recognize the great fidelity you always manifested towards your employers and the interests you invariably sought to forward to the best of your ability.

We ask this Silver Watch Set as a slight memento of our friendship and of the years so pleasantly spent in connection with the Cedar Mill, and we assure you that we all most gratefully wish you and your family may long enjoy a life of happiness and prosperity wherever your lot may be cast.

Signed on behalf of the employees, Deseronto, Aug. 7th 1895.

REPLY.

Friends and co-workers of the Rathbun Company.—It will be impossible for me at this time to express in words fitting a reply to this your kind and flattering address accompanied with your very valuable present. Your kind expressions to me are the richest gift of all and I appreciate them more than you all more so. I can express in words but I hope that the same feeling may continue to exist between my successor and you, that you will be faithful to all the duties assigned you, making your employers' interests your own, and I shall have the same interest in the Cedar Mill as in the past.

And now as your Supt. I bid you one and all good bye and may God bless and prosper you all in every path of life and may success be yours, is the wish of your superintendent.

LETTER OF CONDOLENCE.

The following expression of sympathy was ordered to be transmitted to Miss Leckie by the Lonsdale Council of Chosen Friends.

To Miss Olive Reider.

DEAR FRIEND,—We, the members of Lonsdale Council, No. 274, Canadian Order of Chosen Friends, desire to express to you in this the hour when the clouds seem to settle darkest around you our deepest sympathy for you in the loss you have sustained in the death of your beloved Father and our Friend.

When the Council was organized in February 1895 and we felt that in order to be successful as a Council it was most essential to have the help some one of more than ordinary ability, perseverance and faith we were unanimous in our choice of the one who has so efficiently guided the destinies of our Order to such a successful issue.

Through the intervention of Divine Providence our Council has been broken and we feel that our loss has been irreparable. We, the members, suffer, all the members suffer with it, especially so when that member is the moving principle.

To you who have been bereft of your earthly father we would present the words of our Savior "I will be Father into the Father and He that is in the Father will be and by we may be gathered in the Great Grand Council where we shall form one unbroken family and dwell with the Great Grand Council through a never ending eternity.

Signed on behalf of Lonsdale Council, No. 274 C. O. C. F.

PUBLIC LIBRARY.

Dr. May, Superintendent of Public Libraries for Ontario, was in town last Saturday on an official visit. Before proceeding further we may state that the name of Mechanics' Institute is now a thing of the past having been done away with on the first of May, and these institutions will be known in future as free libraries. Dr. May took the opportunity to consult with the board of management and the Mayor in reference to the matter. He showed how near it is under the new law to convert the old Mechanics' Institute into free libraries. Instead of having to pass a bylaw and appeal to the public for power to establish a free library and levy a special rate for that purpose, all that was necessary now was for the old directors of the Mechanics' Institute, now styled the board of management of the Public Library, to agree together to hand over the assets of the library and petition the town council to pay the running expenses in connection therewith.

The municipal council have power to do this by the appealing to the people—in fact the expense was so small that it was unnecessary to do so. In Deseronto for example, the expense of a librarian, rent, etc., would be about \$200 per annum. At present the town council gives \$120 and only a comparatively small number are benefited by the grant. If they doubled that amount they would provide a free library open to every individual in the town. Boys and girls receive a certain amount of education in high schools but it is well known that many if not the majority of calibrated men, are those who have received their education for the first time after leaving school.

We look at it in a moral point of view the free library would be a grand undertaking as it would keep boys off the streets and out of other dangerous places. The legislative assembly of Ontario very liberally grants \$45,000 for the support of public libraries. If the town council will give a library, etc., the government will give a sufficient grant to pay for the books, etc.—say \$150 per annum for the library and \$50 for the reading room, which would be quite sufficient with the large number of books, about 1,200, on hand to make ample provision for readers for many years. Dr. May stated that the assets of the library now amount to nearly \$2,000, including the grant about to be received from the government and that the directors are willing to hand over the amount to the municipality. Dr. May was very much pleased with our reading room and library and at Picton told the people that it was a model reading room and library. The mayor of that town remarked that it was just like Rathbun and Deseronto.

The gentlemen who have acted as directors of the old Mechanics' Institute for years past have been very much cognizant of the difficulties they experienced each year in collecting money enough to obtain the government grant. He considered it unfair to ask a few gentlemen to give so much time when all that is necessary can be done at a trifling expense to the municipality. Should the municipality decide to take over the library, it would pass under the control of a board of management consisting of the Mayor, three members appointed by the Town Council, and three appointed by the Public School Board. In this event, Dr. May thought that many of those gentlemen who had hitherto taken an active part would be selected. Dr. May showed the wonderful success which had followed a similar movement in Massachusetts, every town and village in that progressive State being now provided with a library. It is not surprising that in every town and village yet visited by Dr. May the authorities have expressed a determination to establish a free library, and have no doubt Deseronto will not be behind in this movement, which cannot but prove beneficial to the town.

A GREAT FEAT.

The bicycle run of "200 miles in one day," performed by Dr. W. N. Robertson, of Stratford, Ont., on the 3rd of June, was a remarkable exhibition of endurance in a purely amateur rider. The doctor's scientific training would, no doubt, prove an important factor in successfully engineering such a difficult operation, though (it will be seen by letter published in the other column) he does not hesitate to award due credit for his performance to the agent he relied upon in his great effort.

The doctor's testimony to the remarkably sustaining quality of Maltine with Coca Wine is entirely spontaneous and unqualified, and, therefore, of the higher value. His report will be read with interest by wheelmen generally, in view of his claim that Maltine with Coca Wine enabled him to "pedal comfortably for hours after the period that I should have been exhausted without it."

Dr. Robertson tersely summarizes the valuable action of Maltine with Coca Wine in those cases of overexertion common among most "novices on the wheel," and affirms that "it is a wonderful heart-sustainer." This preparation may be had of druggists, and may be relied upon as an agent of infinite value in nervous prostration and brain exhaustion resulting from undue strain upon the mental or physical energies.

NEWS OF THE DAY.

King Christian of Denmark is ill.

Mrs. T. DeWitt Talmage is dead.

Crops in Japan have been ruined by rain and a famine is feared.

Miss Mary McLure of Chatham was drowned while bathing at Rondeau.

At the Foresters' fête at Brighton a bomb exploded, and several persons were injured.

Richard Leach, the wife murderer, was killed by electricity according to law at Sing Sing.

Miss Jessie Gibson, of Wabash, Ind., was buried to death, her clothes catching fire while she was taking a bath.

Alex. Wilson, recently arrested for robbery in Chatham, was removed to the London Asylum for the Insane.

At Kingston Mr. Sir John Macdonald was sentenced to two weeks' imprisonment and a fine of \$500 for insulting an official.

The annual returns of the postoffice show that the deposits made last year were slightly lower than in the preceding year.

A practical joker sent a box of sawdust mixed with soap to the Hon. Mr. Macdonald, Minister of Justice, at the Hotel New York. The only persons affected were a city clerk in the postoffice and an innocent reporter.

DESERONTO, ONT., FRIDAY, AUGUST, 16, 1895.

NO. 48

Anything we can do for You?—We address this question to every reader of this paper, whether they live in Kingston or a hundred miles away from it. We are selling Dry Goods—not only dry goods—but dry goods of many kinds. Ours is a store of many departments, each of them under the guiding hands of experts in their line. The store is conducted on a modern scale and offers the buyer every inducement any metropolitan concern can offer. There are no goods made that are any better than the lines we carry. There are no prices quoted on first-class stock lower than ours.

Dry Goods by Mail—We offer out-of-town folks superior advantages for buying by mail. We execute every order entrusted to us promptly, carefully and faithfully. People living many miles away can shop with us as pleasantly and profitably as the people who come to the store.

Send us your orders for anything you may need. State explicitly what you want, and if it is not in our stock we will make every endeavor to get it for you.

Mr. Welch, of Rochester, and Miss O'Neill, of Thurlow, were the guests of Mr. Deacy on Monday.

Miss Anderson and Drummey visited Thurlow on Monday.

All is preparation for the picnic on Wednesday. The ladies of the committee are working hard this week to make the picnic a success. Come all!

SHANNONVILLE.

Miss Lynn, of Warsaw, was the guest of Miss Shetter last week.

Mr. & Mrs. Wm. E. Belleville, were the guests of their daughter, Miss J. Kerr, last week.

Mr. Wm. Peake was visiting his sister, Mrs. L. E. Miller, on Friday last.

Mrs. Pennick and her sister Mrs. Findlay, who were visiting friends at Picton returned home last week.

Mr. & Mrs. Wm. Earle, of Mackies, were visiting at the home of his mother this week.

Miss Alice Barker and Mary Henty are visiting their son, Mr. H. Morton.

Miss Blanch Pearson, who has been visiting friends at Picton, returned home this week.

Mr. Brown, photographer of Westlake, has been visiting our citizens here and quite a number of our citizens have availed themselves of the opportunity to have photos of their homes.

DEMORESTVILLE.

Death has entered our village and robbed us of one of our neighbors in the person of Mr. Edward Goringham, of Belleville, a ripe old age of seventy three years and ten months. He leaves a widow, two daughters and two sons to mourn his loss.

Mr. Burton Ferguson, of Trenton, is stopping at the Palmer House for a few days.

Mr. F. Wilson and wife spent Sunday in town.

Mr. & Mrs. S. J. Ryan were visiting Mrs. Ryan's sister at Waupoos on Sunday.

Miss Morden, of Toronto, spent Sunday in town as the guest of Mrs. B. B. Bell.

Mr. Orville Ward, of Picton, was a caller here Sunday.

The congregation at the Methodist church on Sunday evening listened to a very able sermon delivered by the Rev. Mr. Backler and to a short address given by one of the audience.

MELROSE.

The Rev. Mr. McArthur is spending a few weeks in Belleville in Bath and the Thousand Islands.

Mr. Wm. Mundell, Jr., of Montreal, is spending his vacation with his parents.

We congratulate our young friend, Arthur Osborne on his success at the recent examinations for a Third Class certificate.

Quite a number from this vicinity attended the theatricals of the class at Massanuga Park on Friday last week.

John Sparrow has purchased fifty acres of the Trip farm for the sum of five hundred dollars.

Our new school house is now completed and ready to be occupied on the re-opening of school. The building presents a neat appearance, well finished with first class material and is large and commodious, the dimensions being 43x35 feet with a ceiling twelve feet high. The entire job reflects credit on the building committee also the contractor, D. B. Morden.

NEUBURGH.

Weather warm and pleasant, fine time for the farmers to get balance of harvest off. The fields are green, and the crops have the same appearance as it was the month of June.

Business is fairly good for this time of the year.

John Farley was taken seriously ill on Saturday last but we are pleased to say is recovering nicely so he can be out again.

Wm. Baker is recovering slowly.

Mr. Burdett is not improving much.

D. A. Nesbit and son, Howard, returned home from the west on Tuesday.

Thos. F. Holgate and family returned to their home in Chicago on Tuesday.

Miss Geneva Burdett left for Tuesday to make a year's visit with friends in Chicago.

Hughes again visited our village on Wednesday morning, and on Friday he was here some time during Tuesday night. They procured tools from Mr. Finkle's shops and opened the drug store door of Beaman & Co. and took a hole through the top of the safe, about an eighth of an inch in diameter, into which they poured powder and then by lighted fuse they succeeded in burning the door of the safe open. Finding no money in the safe they took in cash about four dollars and in goods about ten dollars worth. They also entered the Post Office through the back window, bursting the fastening, but did not find any cash, but from the condition in which Mr. Harper found his office they made a thorough search. No one has been seen about that suspicion could be placed on.

The three got off without being hurt or seen.

A number of our people attended Rev. Straton and Grosley's excursion on Saturday morning, and a good time was had. Also a number attended the excursion to Ottawa on Wednesday.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Bocket, a child (ages twenty-five days) only 25¢, children love it. Sold by W. G. Fagar.

R. Dingman has departed to prosecute his vocation of thrashing. "He had, Dick, to start out with new goods rendered in that style but fire will do it any time, but "do not tell Marion."

Could we look back in the far past and view Adam walking in the Garden of Eden coming suddenly upon the tree, we would have been more interested than to see one of our neighbors at midnight, minus the fig leaf poling to try to find a family of raccoons out of the garden.

Ed. Edin, Mr. Editor, was a pitiable sight to see "Sim" trying to do the "coons and the coons trying to climb out of reach of powerful weapons in the hands of their opponent. It was a light to finish and by the look of that board fence "Sim" came out on top, but where was "Duke." "Sim" is now wearing the "stripes."

METHODIST CHURCH.

Services were conducted last Sunday by the pastor.

Next Sunday Mr. Lewis Wright will preach both morning and evening. A good attendance is solicited. Mr. Taylor will occupy the pulpit of George street Methodist Church, in the absence of Rev. W. R. Young.

The Quarterly Board will meet this (Friday) evening.

ST MARK'S CHURCH NOTES.

The Rev. W. Lewis, until recently rector of Prescott, assisted at both services on Sunday last. The choir, under the direction of Mr. St. Luke 14: 18, on the subject of "Exorcism."

On Sunday evening the efforts of the members of the Brotherhood of St. Andrew were rewarded by a good attendance of young men. The hymns sung were suited to the strength of the choir.

The choir has commenced to practice for the annual Harvest Festival, and the music given to the choir.

The Archbishop of Ontario has consented to advance the Curate to the Priesthood at a special ordination service to be held at the Cathedral, Kingston, on Saturday, August 21st.

FIFTY-FOUR LOST AT SEA.

A despatch to Lloyd's, from Sydney, N. S. W., states that the British steamship Catterthorn, bound from Sydney to Hong Kong, ran the Seal Rocks which lie between Sydney and Brisbane, and became a total wreck. The despatch says that some of the passengers and crew were saved, but that a number of persons were missing.

A Central News despatch from Melbourne says that the vessel struck at 2 o'clock in the morning. It was soon seen that there was no possible chance to save the vessel and orders were given to abandon the ship. All hands took to the small boats and laid their course for the mainland. One of the boats reached Foster this morning, but the others have not been heard from, and it is feared they have been lost. There were a large number of Australian and English passengers on the steamer.

A later despatch from Melbourne states that the Catterthorn struck at 2:45 o'clock in the morning and sank twenty minutes later.

The names of those who are supposed to have been lost are Neil Shannon, the captain, Mr. Finney, the first officer, Mr. Officer, Mr. Harpur, Second Engineer Adams, Third Engineer Wilson, Fourth Engineer Wolstenholme, Anderson Phipps, 30 Chinese and 18 Chinese steerage passengers.

The passengers who are supposed to be lost are Messames Mithaler, Loring and Smith, Miss Loring, Mr. Robert Fraser and 18 Chinese steerage passengers.

At the time the vessel struck a heavy south-east gale was prevailing. When the vessel hit there was a severe shock that could be felt in every part of her. The passengers were greatly alarmed and there was much confusion. The captain remained on the bridge, but he was so dazed that he thought that the steamer had only been struck by a heavy sea. The ship continued on her way, but before many moments had elapsed it was found that she had a hole in her bottom and was making water rapidly. She began to sink and took on a list to starboard. The crew and her boilers were soon extinguished and the vessel was then helpless. She broached to and the sea swept her over her side and all.

Every effort was made to save the boats but they were all lost. The boats were baffled by the sea which swept them inboard after they had been swung out on the water. The port life-boat was lost last night, it being swung out on the davit and away.

Notwithstanding the dangerous position of the steamer, which it was now seen was doomed, excellent arrangements were made. During an attempt to lower the starboard cutter, a tremendous sea broke aboard the steamer and carried away the cutter. It was saved from the bridge the captain and chief and second officers and Captain Fawkes. The last named having been unable to reach his cabin to obtain a life-belt, had borrowed the coat of a Chinese, and was in the act of putting the life-belt on when he was swept off the bridge.

A few minutes later, after a very great effort, the starboard life-boat was lowered and it picked up Captain Fawkes, who was clinging to some floating wreckage. Only three other passengers were rescued; these were Second Mate Tanfer, Dr. Cooper, and a passenger named Crane, belonging to Melbourne.

A despatch from Melbourne, just received, says that divers have left there for the scene of the wreck for the purpose to recover the 11,000 sovereigns in specie, on board the steamer.

The despatch further states that it is now known that the total number of lives lost in the disaster is 54, many of the Chinese passengers and crew being included. The starboard life-boat was only four previously mentioned survived.

Later despatches say that the Seal Rocks are 110 miles north of Sydney. The Catterthorn, in addition to the general cargo had on board 11,000 sovereigns.

Mr. Mathias, wife of the captain of the steamer, Captain Mathias, of the London and Japanese ports, had been at Sydney visiting friends. When the Catterthorn struck off her hull at the wharf Aug. 7, Mrs. Mathias' alarm was given by her husband crying bitterly. She said to her husband: "Oh, my dear, you will be drowned; I will never see you again."

The Catterthorn belonged to the Eastern and Australian Steamship Company of London, she was built at Sunderland in 1881 by W. & A. Mitchell. Her length was 202 feet 3 inches, beam 35 feet 5 inches, and depth of hold 23 feet 7 inches. She was schooner rigged and of 2170 gross and 1400 net tons. Her engines were of the compound type of 250 horse power. The officers of the Catterthorn were English and the crew were Chinese.

DOUGLAS' EGYPTIAN LINTMENT.
A CLOSE CALL.

Watson's 'Admiral' says by Douglas's Egyptian Lintment.

Mr. McAdams writes: "I have doctored for two years with four different doctors for pain in my right leg, which was prevented by my doing anything. Had bad cough eight years, and also suffered great pain. I grew very weak and suffering increased; hearing of such remarkable cures made by Douglas' Egyptian Lintment I determined to try it to remove the pain. I received immediate relief. I followed directions, pain decreased, cough lessened and before six bottles were used I felt a sound man. It is now exactly three years this spring and I have had no relapse. As soon as I began to use the Lintment I stopped taking any medicine whatever, and my statement and trust that other people when first taken with heavy colds and lung troubles, may find it as I did at last resort, and save dollars. Yours truly,
TAMWORTH, May 23rd, 1895. VASCOUS McADAM

DO NOT JUDGE BY CLOTHING.

Boys, do not judge a man by his clothing. A little incident occurred on one of the lines of street cars of Boston a few days since which is worthy of notice. A poorly clad woman entered the car, carrying an infant in her arms. As she sat opposite I observed she seemed troubled about something. The conductor passed through the car for the fare she said, "I have no money." "Please sir, I have no money; I will ride this time and some other time I will pay you." "I can hear that story every day. You are the conductor, in a word, rough voice. "You can pay or get off." "Two fares, please," said a pleasant voice, as a tall, well-dressed woman, in a very low voice, said the woman, and long and silently she wept: the language of the heart so eloquent to express our hidden thoughts. This man in worn and soiled garments was one of God's noblemen. He possessed a heart to feel for the lowliest and unlearned, and although the fact was a little, it proves that we cannot, with safety, judge a man by his clothing. "For many a true heart beats beneath a ragged jacket."

CAN HEART FAILURE BE PREVENTED?

Stalling and brief the announcement, "Sudden Death Caused by Heart Failure." Such is the stereotyped announcement of coroners, jurists, and reporters arousing the feelings of those victims of indigestion and mal-nutrition, who so frequently disturb themselves upon the manifestations of indigestion, and the various functional disturbances of the heart symptoms which they are foolishly prone to accept as the signs of an incurable, and fatal, malady. Malnutrition and Vice is potent in restoring conditions that no longer render possible such alarmingly disturbing symptoms. Malnutrition and Vice, through its remedial influence upon the nervous system, soothes into calmness the over-irritable nerves. The heart, the lungs, the stomach, the bowels, the bladder, the prostate, the reproductive organs, no longer plug and beat as if determined to break. Malnutrition and Vice has long been recognized as the most pleasant and efficient remedy for all those functional derangements that find manifestation in indigestion, constipation, dyspepsia, and indigestion, and all the various ailments of the body, a body builder, a nutritive and digestive agent of incalculable value. All druggists sell it.

Anderson's grove, a few steps from Marysville station, is the place at which Father Quinn's picnic will be held next Wednesday.

The excursion of Messrs. Crossley and Stratton to the Thousand Islands last Saturday was well patronized and as usual all arrangements were carried out to the letter.

The prizes offered for the different athletic events which will take place at the Marysville picnic are numerous and handsome and will inspire a large number of competitors.

Visitors to Father Quinn's picnic at Marysville next Wednesday will find that every arrangement has been made for the proper care of horses and rigs, so that no anxiety need be felt on that score.

Private Hayhurst, who won the Queen's prize at Bilev, has met with enthusiastic reception at Montreal, Toronto and Hamilton. We had the pleasure of seeing this renowned rifleman on his arrival at Toronto last Tuesday morning.

The yacht Mirage, Capt. Thompson, of Toronto, was in port on Tuesday having a jolly crew aboard consisting of Messrs. W. B. Crowe, Cramin, Sullivan, White, etc. They had crossed the lake to Charlotte, thence to Oswego and Kingston, and were making their way home by the bay route.

The Walker Bros., Uncle Tom's Cabin Company played to a good house in Napanee last Monday and at Shannonsville next day. Several members of the company spent Sunday in town visiting their homes. The company has met with great success all through the season.

An attempt is being made to have Tuesday evening included in the early closing list. Very little business is done at night by the people who have got accustomed to making purchases during the hours of daylight. It is thought that no one would be offended by closing on Tuesday evening as well.

Some thoughtless persons having mentioned his name in connection with the sale of that objectionable meat mentioned in last week's TRIBUNE, Mr. Pearson the market butcher, desires us to state that he never sold beef of such a description, a statement which all who know his reputation for honesty and fair dealing will accept without hesitation.

Master John Gowan's good dog "Tramp" can trot a rapid gait as any one can see who watches him galloping along the street yoked to his cart. On Tuesday at Napanee he had a friendly trial of speed with a pony owned by B. McGuinness of the Gravel Road. The dog was too fast for the pony winning with ease. He appeared to enjoy the trial of speed.

Frank Weldon, a young lad who is disposed to enjoy a free life in preference to the restraints of good friends at home, nearly caused his own destruction the other day. Chief Guyon was trying to capture him in order to return him to his friends when the desperate boy leaped off the dock at the Cedar Mill into the bay. He could not swim one stroke and it was only by great exertions he was rescued from a watery grave.

Rev. Dr. Horr, of Worcester, Mass., conducted the services in the Church of the Redeemer last Sunday, preaching able and eloquent sermons which were much appreciated by all present. He also, by request, gave a short address to the Boston convention at the meeting of the Christian Endeavor Society in the evening. He was greatly impressed with what he saw in the busy factories of Deseronto and with the delightful scenery of the Bay district.

Thomas Southworth, Forestry Commissioner for the Ontario Government, spent last Friday in town. It was his first visit to Deseronto and he made a careful inspection of the different industries. As a result he was profoundly interested in all that came under his observation. He was especially struck with the manner in which what may be called, waste products of the forest are utilized and turned to commercial advantage. In this respect he considered the works of the Rathbun Company as singular and models to other lumber manufacturing in the province. He also visited Napanee Mills where F. G. H. Allan kindly showed him the process of manufacturing Portland cement. Mr. Southworth was surprised at the care exercised and the numerous processes required to be undergone in order to produce the cement. The results of his observations will no doubt be incorporated in the annual report of his department, one of the most interesting in the public service of Ontario. Mr. Southworth, we may remark is a very keen and practical observer, being an old newspaper man. He was for many years one of the owners of the Brockton.

Prof. Denmark's orchestra will furnish the music for the Marysville picnic next Wednesday.

Fare from Deseronto to Marysville and return next Wednesday, only 25c.

The Call Accepted.

The call presented by the Church of the Redeemer to Rev. W. S. McFEE, D. D., Redeemer, came up for consideration at a meeting of the Parish Presbytery held at Stratton last Tuesday, 13th inst. The call was signed by 173 communicants and 100 adherents. Mr. Russell as commissioner from the Kingston presbytery and the Deseronto congregation, supported the call.

Messrs. Wood, Fleming and Reid representatives of the St. George congregation were present and in able and earnest addresses expressed their objections to the removal of Mr. McFEE who was held in high esteem and affection by his people who were unanimous for his retention in his present sphere of labor. Their pleas were most forcible and pathetic. Mr. McFEE on being asked by the Presbytery stated his desire to accept the call to Deseronto, though it caused him untold pain to part with his people, and the fact which his relations had always been the most friendly churchmen. The Presbytery acquiesced in his decision and agreed to his translation to Deseronto and took the usual steps towards the severance of his pastoral ties. The members of Presbytery expressed the great regret they felt at the proposed removal of such a faithful worker and counselor as Mr. McFEE and subsequently passed very flattering resolutions testifying to his abilities as a preacher of the gospel, his scholarly attainments and to the great success which had followed his ministrations in St. George. It is probable that Mr. McFEE will be inducted into the charge of the Church of the Redeemer about the second or third week in September.

Our expert Optician will be at Malley's Drug Store, Tuesday, 13th inst. An opportunity of which every person with failing or defective eyesight should take advantage. Consultation and examination free. Angus McFEE & Co., Belleville.

Moonslight Excursion.

The annual moonslight excursion of the Deseronto Cricket Club will be held this evening per steamer Ella Ross to Massena Park. The boat leaves the steamboat dock at 7:30 o'clock sharp. Fare 25 cents.

1000 Islands Excursion.

Remember Rava, Crossley and Stratton's excursion to the 1000 Islands on Saturdays, Aug. 10th and 17th. The popular str. Merritt will leave Deseronto at 9 a.m. on each Saturday, Cole's 9:20, Pictou 10:30, 1000 Island Excursion.

Don't forget the excursion to the 1000 Islands on Saturday next, Aug. 17th, str. Merritt leaves Deseronto at 9 a.m. Every body was delighted with the trip last Saturday. Next Saturday will be better still, come along. Rava, Crossley and Stratton will make it pleasant for you.

Lonsdale Presbyterian Church.

Rev. D. O. McArthur, of Melrose, is spending his summer vacation with friends at Bath, his former place of work. During his absence the Lonsdale congregation are thoroughly renovating their church, painting and otherwise improving it both inside and out. It will be re-opened, Sunday 25th when Mr. McArthur will preach at 2:30 p.m.

A Lenient Sentence.

The two men Gillard and Gordon arrested on July 21 at Chief Guyon for robbing Frank Bishop on a Grand Trunk train were brought before Judge Laxier for trial. They pleaded "guilty" to the charge, and were sentenced to six weeks' imprisonment, their term to date from the beginning of their incarceration. They are to make restitution of all the money and pay expenses of Bishop. This is a very lenient sentence for such a crime and will have a tendency to encourage train robbers to pursue their calling. Had they stolen a few green apples from an orchard they would have got a year in the Central prison. Such is the administration of justice.

Daughters of Rebekah.

Mrs. E. T. Miller has been in Hamilton this week representing Aberdeen Lodge at the meeting of the Grand Lodge of Daughters of Rebekah. The order has made marked progress during the past year. It is pleasing to see that Mrs. Miller has been elected one of the officers of the Grand Lodge, a compliment both to her and Aberdeen Lodge. The following officers were elected:—Mrs. E. Lee, Kingston, President; Mrs. Laura Ryan, Toronto, Vice-President; Mrs. Maggie Waddell, St. Thomas, Secretary; Miss Nellie Dobson, Chatham, Treasurer; Miss Robert, Collingwood, Warden; Mrs. E. T. Miller, Deseronto, Outside Guard; Mrs. Harman, Ottawa, Inside Guard; Mrs. Winnie Bateman, Call, Chaplain.

ROYAL ART STUDIO.

Our new studio will soon be ready, then we intend showing the people of Deseronto something entirely new in photography. We have been experimenting with the process while our building is being remodelled and can guarantee something new and permanent. Prices will be right and every photograph perfect.

HERBERT A. OSORNE.

Excursion to Thousand Islands.

On Saturday, August 24th, an excursion under the auspices of Court Deseronto, No. 03, I. O. F., will be run to Thousand Island Park and Alexandria Bay. BIRTHS.

SPROUTS—At Arrowsmith New Zealand, on June 18th, 1935, the wife of George Sprott, of a daughter.

DEATHS.

BRANT—At Tyndinaga Reserve, on August 10th, Mary Ethel, infant daughter of Jacob L. and Annie Brant, aged 1 month and 12 days.

Mrs. J. H. Anderson who, it will be remembered, was stewardess on the Quinette when that vessel was burned, passed up the bay on the North King last Sunday on her way to Rochester. She has a good position in a charitable institution in Montreal and her son is getting on well, being in the employ of Fotheringham & Workman, of that city.

On Friday, a Mrs. R. Day hired a horse from Thos. Gault, and went to Napanee, Ont., instead of going to that town she went to Pictou and then proceeded to Port Hope, Mr. Gault communicated with the police at Port Hope who arrested the woman and held the horse and rig in custody. Mr. Gault went up by train to recover his property.

Capt. Chalmers, of Adolphustown village, father of Neave Chalmers, died on Tuesday, last Friday while he was unloading grain in the barn something went wrong with the fork and it broke striking him on the side. He lingered until Tuesday morning. Deceased was well known in the district having been a captain on the lakes for many years.

Two of our young men enjoyed a very pleasant trip to the Thousand Islands the other day. To judge from the size of their tin box it would have been thought they intended staying a month, but a new light was thrown upon the question when they were joined at Kingston by two young ladies. The boys had a most pleasant time and their friends hope they may be able to spend a week or two at Kingston this summer.

Concert at Tamworth.
The congregation of St. Andrew's Presbyterian church, Tamworth, intend giving a grand concert on Mr. Coxall's new hall on Sept. 15th, the last evening of the county fair will be held at Tamworth. A strong array of excellent music talent has been engaged for the event.

Scotland Yet.
The gathering of the Clans at Great Glen Park last Friday proved to be a great affair, the attendance being on an enormous scale. The games were witnessed by thousands of spectators and the different events were well contested. The members of Scotland Yet camp and their friends went up to the Park on the Armada and it is satisfactory to learn that the Scotchmen of Deseronto were about the best looking men on the ground. The medals given by this camp for two of the events were won by G. Nolan and F. Sanford. W. D. McRae, A. D. McIntyre, Wm. Stoddart filled auspicious positions in several committees.

JUST A WORD!

About our new Gang Plow. We have the only gang that will run straight, plow hard land, and turn a furrow as well as any walking plow. We sold over 100 of these plows last year, and nearly every man to whom we sold had some other gang plow which he threw aside after trying ours. Don't wait for our agent to call. Drop us a card and we will send you a plow, and after you have tried it, if you can afford to let it go off your farm, we will take it back free of charge to you.

See our last week's advt. in the paper for the reason that we are selling all our goods at slaughter prices. It will pay you to read and act on our last week's advt. We did a rushing trade last week at our reduced prices. This sale will continue until everything is cleared out.

OUT-OF-THE-WAY PLACES.

Greece stands lowest in point of wealth of all the countries in Europe.

A Madagascarese correspondent tells of four hundred pineapples being bought and delivered for a school picnic there for \$1-four shillings.

In the Loo Choo Islands, though there are neither vehicles nor public lighting, the inhabitants have letter boxes and telephones.

Habitual toppers are to be photographed in New Zealand towns. Each saloon is to have a gallery of them, and the proprietors who supply liquor to them are to be fined.

In some parts of Japan at a wedding the bride, as a sign of her subjection, kneels and washes the feet of the bridegroom after he has trodden upon raw eggs.

SALVATION ARMY.

The Naval Brigade Brass Band in charge of Adjutant McGillivray will arrive by the Army Cruiser "Willow Bay" in Deseronto 11 45 a. m. Monday 19th. A unique street parade will take place and a grand musical demonstration will be held in the B-tracks at night. Admission 10 cts.

Deseronto Race.
The Deseronto Driving Park Association will hold their annual races on Monday, Sept. 2nd, Labor Day. It promises to be the most successful meeting yet held as early as the last horse of Eastern Ontario have been made with the Grand Trunk which will carry passengers from Trenton on the west and Napanee on the east at one fare good to return next day. Fare from Deseronto only 25 cts. return. Dinner and tea will be served for 25c each. Prof. Denmark's orchestra will furnish music for dancing. The games and sports will be on an extensive scale and some very exciting contests are expected for the five prizes offered. All that is needed is fine weather to ensure a gratifying success.

The Marysville Picnic.
The annual picnic of St. Mary's congregation, Marysville, which will be held next Wednesday, 21st inst., bids fair to be an unparalleled success. Father Quinn and his people have been working with great zeal and energy to make ample preparations for the vast numbers expected to partake in the festivities of the day. The grove is easy of access. Arrangements have been made with the Grand Trunk which will carry passengers from Trenton on the west and Napanee on the east at one fare good to return next day. Fare from Deseronto only 25 cts. return. Dinner and tea will be served for 25c each. Prof. Denmark's orchestra will furnish music for dancing. The games and sports will be on an extensive scale and some very exciting contests are expected for the five prizes offered. All that is needed is fine weather to ensure a gratifying success.

A MILE DOWN IN THE EARTH.
The great novelty at the Paris exhibition of 1900 will be, it is expected, a dive down into the bowels of the earth.

M. Grosses's plan, which, it has been announced, has been accepted by the management, is to dig a series of eight vertical shafts six hundred feet in length, one beginning where another leaves off.

Two passenger elevators to run in each shaft, and there are to be galleries or stations at the end of each elevator journey, where refreshments will be served under the blaze of electric lights.

The excavations will be thoroughly ventilated, and the traveller who descends to the lowest depth will be 4,500 feet below the surface from which he started. The estimated cost is \$250,000, which one would think, is quite moderate for so large an undertaking.

It is fortunate for most of us that we do not appreciate how much we are disliked.

"What is the golden mean we hear about?" asked one small student of another. "It must be a miser," replied the latter.—Detroit Free Press.

BRIEF BITS.

Life, like the water of the seas, freshens only when it ascends toward heaven.—Hobbes.

He who always prefaces his tale with laughter is an enemy of common sense and folly.—Lavater.

Without labor there would be no progress, and no leading place in the world.—Gautier.

Five things are requisite to a good education—ability, clean hands, dispassionate mind, industry and a good teacher.

When thought is too weak to be simply expressed, it is clear proof that it should be rejected.—A. Van der Grint.

I know no number of speaking so offensive as that of giving praise and closing it with an exception.—Steele.

There should be an eloquence in parting, when spinning out the time is but the weaving of new sorrow.—Stuckling.

In the treatment of nervous cases, he is the best physician who is the most ingenious imitator of hope.—Coleridge.

Nothing is more dangerous than an imprudent friend; better it is to have to deal with a prudent enemy.—La Fontaine.

The woman who is resolved to be respected can make herself to be so even amidst an army of soldiers.—Cervantes.

True bravery proposes a just end; measures the dangers, and meets the result with calmness and unyielding decision.—Le Sage.

The first ingredient in conversation is truth; the next, good sense; the third, good humor; and the fourth, wit.—Sir W. Temple.

Can any man or woman choose duties? No more than they can choose their birthplace or their father and mother.—George Eliot.

Money is only thus far a standard of value; that which it can measure is perishable; that which it cannot is immortal.—Bates.

GRAINS OF GOLD.

Life is fortified by many friendships. To be and to be loved is the greatest happiness of existence.—Sydney Smith.

What's your deal, of time and case that man who is not troubled with the spirit of impertinent curiosity about others.—Anon.

There should be as little merit in loving a woman for her beauty as a man for his property, both being equally subject to change.—Pope.

Laughter is day, and sobriety is night; a smile is the twilight that hovers gently between both, more bewitching than either.—H. W. Beecher.

We must conform to a certain extent to the conventionalities of society, for they are the ripened results of a varied and long experience.—A. A. Hodge.

One watch set right will do to set many by; one that goes wrong will be the means of misleading a whole neighborhood; and the same may be said of example.—Dilwin.

Do not too presumptuously sure in any business; for things of this world depend on such a train of unseen chances that if it were in man's hands to set the tables, still he would be certain to win the game.—Herbert.

Abstracts, abridgements, summaries, etc., have the same use with burning glass, to collect the rays of wit and learning in authors, and make them point with warmth and quickness upon the reader's imagination.—Swift.

The Earl of Jersey owns a margarine factory and London, which turns out 175,000 pounds of butter substitute per day.

A Woolwich cat was recently killed by a mauling bull. He missed the ball on its rebound from the wall, when it struck him in the left temple, producing compression of the brain.

The Lord Chief Justice of England, at Liverpool assizes, said recently that he saw the diminution of crime in part to the number of public houses.

Japan's small losses in men in the battles with the Chinese were due in part to the new bullet-proof armor and the use of a bullet-proof material. Owing to the severe cold, the Japanese soldiers were a quantity of floss silk under their clothes; this, when they were hit, was found in many cases to have stopped the bullets.

Prince Lismore is quite a hearty eater for a man of his years. Choices of variety and all varieties of game are especially pleasing to him, and he likes a good deal of food at certain seasons. He has always been very partial to the delicacies of the table and has been even suspected of an admiration for French cookery.

FATHER AND SON CURED

THE VILLAGE OF WHITECHURCH DEVELOPES A SENSATION.

THE FATHER ATTACKED WITH RHEUMATISM AND THE SON WITH ST. VITUS DANCE—A STORY THAT CAN BE VERIFIED FOR BY ALL THE NEIGHBOURS.

Mr. Joseph Nixon is the proprietor of the only hotel in the village of Whitechurch, and is known to the whole countryside as a man who thoroughly understands his business, and a jovial companion as well. It is well known in this part of Ontario that Mr. Nixon's hotel was destroyed by fire, but with that energy which is characteristic of him he quickly set to work to rebuild. His story, as told a reporter of the *Whitman Advance*, who recently had occasion to visit his hotel, will prove of interest. "I was helping to dig out the cellar," he said, "and in the dampness and cold, I contracted rheumatism which settled in my right hip. It got so bad that I could not sit in a chair without doubling my leg back at the side of my chair, and I could not sleep in a buggy without letting the affected leg hang out. I suffered a great deal more from the trouble than anyone who has not been similarly afflicted can imagine. How I was cured is

"I WAS HELPING DIG OUT THE CELLAR."

even more interesting. One day I saw a neighbor whom I knew had rheumatism very badly, and he told me the story. I asked him and asked what had cured his rheumatism. Dr. Williams' Pink Pills he promptly replied, and that determined me to try the same remedy. Well, the result is that Dr. Williams' Pink Pills cured me, and that is something other medicines failed to do. I don't know what it is in them, but I do know that Pink Pills is a wonderful medicine. And it is not only in my own case," continued Mr. Nixon, "that I have reason to be grateful for what the medicine has done. My son, Fred, who is about twelve years of age, was taken with an attack of cold, inflammation of the lungs set in and as he was recovering from this other complication, headache, vertigo, developed into St. Vitus dance, which got so bad that he could not possibly stand still. We gave him Dr. Williams' Pink Pills, with the result that he is now thoroughly cured, and looks as though he had never had a day's sickness in his life, and if these facts, which are known to all the neighbors, will be of benefit to anyone else, you are at liberty to publish them."

Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, vertigo, chronic erysipelas, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressing and forming of false weakness, building up the blood, and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excess of any nature. Dr. Williams' Pink Pills are sold only in the original form, the firm's trade mark and wrapper (marked in red ink) and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockton, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes for \$2.50.

MINING TOUR.

The School of Mining, Kingston, will organize a party to go out on a prospecting tour up the Rideau canal to the North of Frontenac and adjoining counties. The objects of the tour are to train men in the methods of prospecting for valuable minerals, and to give them a practical study of the geology of the district. The travelling will be done by canoe, which, with the camping outfit, will be provided by the School of Mining. The members of the party will pay their own expenses, a round of 50 cents a day. It is estimated that the total cost of the trip will not be more than fifteen dollars for the entire party, and three weeks' tour. A deposit of twenty dollars must be made with the bureau by each member of the party, not later than Aug. 20th. At the end of the tour the expended part (less than two dollars), will be returned. The party will leave Kingston on Tuesday, Sept. 3rd, and will be led by Mr. W. G. Miller, of the School of Mining.

THE SAME CAT.

B. V. Wolfe, agent of the North German Lloyd Steamship Company in Middleton, N. Y., has a cat that he has for months been telling him to get rid of. The cat is given to farmers who have taken her miles away from their homes, time after time, but she has never failed to put in an appearance again at the Wolfe manor.

The other day Mr. Wolfe went to New York. He put the cat in a bag, and placed it under a seat of the car. When the train reached Strerling, Mr. Wolfe dropped the cat out of the window. Strerling is forty miles from Middleton. Mr. Wolfe contacted his business in New York, and went home. This was on Tuesday. When he went home to supper on Thursday night and found the cat under the seat, he was the same cat. She got up, rubbed herself on her master's leg, and purring in a way that showed him that she was the same cat. He was so much surprised that he called her little cat, and she came down and seemed dazed for a minute. Then he stroked the cat fondly, but respectfully, and said, "You can stay here as long as you live if it is a hundred years. I'll get a gold collar for you and tie it full of red ribbons. Pussy, you're a dandy."

A WARNING TO SMOKERS.

For some time past certain dealers have been selling inferior brands of tobacco when "T.B." is asked for, thus not only trading on the reputation of the manufacturers but also injuring the health of the smoker.

The Geo. E. Tackett & Son Co., of Hamilton, have taken the matter in hand and intend prosecuting the offenders.

Smokers should be careful to see the "T.B." stamp on each plug as, to gain extra profit, unscrupulous dealers tear the tag off other brands and say it is "T.B." and "just a good."

NAPOLEON AND THE BARBER.

Napoleon's smooth face was a source of evidence of his dislike for a beard. In some anecdotes of the Russian campaign there is a story told of the great Emperor and a poor but witty barber, who had occasion to shave him.

Napoleon had made a rather lengthy detour from the line of march with a small village they refreshed themselves with a good meal and bath. Napoleon, wishing to be shaved, the village barber, having no razor, while the poor fellow strapped his razor and passed it industriously over the great Emperor's chin, he remained silent and seemingly morose, although performing his work with amazing rapidity and smoothness.

When he had finished, Napoleon complimented him, remarking, "But, my dear fellow, you are a melancholy rascal! You should be happy to have the privilege of shaving an Emperor."

"I am doubly happy, my Majesty," replied the barber, "for I know that it was to be shaved by me, I am sad and melancholy."

ANOTHER HAS ENTERED HER REST.

HOUSES AND HOUSES.

In frame houses there is, unfortunately, an almost infinite variety of colored points. When one passes between the rows of small and cheaply ornamented frame houses which disfigure our suburbs and the many "parks" which run for miles beside our railroads, one could almost wish that paint had never been invented.

Are our carpenters and contractors and the buyers of their wares all but color-blind that they can endure without suffering the varied patches of hideous coloring that rush past our aching eyes? Red, blue, green, yellow, and sometimes all four, are everywhere, as one looks home! But the fault is not altogether in the color. A red house may be even beautiful if the tint is dark and soft, like that of some berries, and half hidden in masses of green.

But it is an affront to the eyes when spread over the boards of a high and much be angled house brooding on the sand bank of an unrefined railway, without even a lean to shelter it.

The once much derided white house with green blinds seems much to be regretted, and it is at least the advantage of making no pretension to bright light, neatness, cheer, and comfort.

With plenty of green about it is even better. In suitable situations, there is a good combination of cream-color (real cream, not little yellow ochre with a good deal of white lead) with white trimmings; and there are a few hints of gray or brown which may be used to advantage, but only in two or at most in three shades, and always of the same color, using the lightest for the body of the house, and the heaviest for the trimmings and window blinds. All attempts at staining or painting are odious. Even after one has done one's best to secure softness and colorlessness of color, the impression of vines to grow, and with their cool greens in summer or changing hues in autumn, or by the delicate tracery of ivy, is almost insupportable in winter, to soften all crudities of outline or tint.

HOSE RACING AT AGRICULTURAL FAIRS.

The minister of Agriculture has issued the following circular:

Several applications having been made to this Department by various Agricultural Societies for an interpretation of section 29 of the Agriculture and Arts Act, 1895, the following is given to the officers and directors of such societies for their guidance:

By section 9 of the said Act, the object of such societies, as relating to live stock is confined to two things, (a) the purchase or importation of valuable animals, (b) awarding premiums for excellence in the raising of such animals.

Sub-section 3 of this section declares that none of the funds shall be expended for any purpose inconsistent with the above objects.

The opinion of the Legislature, as expressed in section 29, was that horse racing as ordinarily conducted is inconsistent with the objects above set forth.

It is pointed out, therefore, in awarding premiums for light horses of any class, that form, soundness, and style shall always be considered as well as speed, and that no horse shall be placed first for speed alone.

If, in the judgment of the officers or judges, it is deemed desirable to test the speed of the contesting horses, it is allowable under this clause to do so, but the prizes must in every case be awarded on general excellence as seen in the above characteristics.

It is further provided that the breed of sound, stylish, right-stepping horses, so much in demand in the great horse markets of the world.

It is hoped therefore that directors of Agricultural societies will strictly and cheerfully adhere to the regulation as thus set forth.

JOHN DRYDEN, Minister of Agriculture.

IN DEEP DESPAIR

A MONTREALER RELATES HIS WONDERFUL EXPERIENCE.

HE HAD TRIED FOREIGN AND LOCAL PHYSICIANS AND HAD OPERATED UPON WITHOUT SUCCESS—DR. WILLIAMS' PINK PILLS CURED HIM. ALL OTHER MEDICINES FAILED. Instances of marvellous cures by the use of Dr. Williams' Pink Pills for Pale People are numerous, but the one related below is of special interest, owing to the peculiarity of the illness, and also to the fact that in the present instance the gentleman is well known in Montreal. Mr. Charles Frank, Inspector of the mechanical department of the Bell Telephone Co. at 371 Avenue, in an interview with a Herald reporter, related the following wonderful cure by the use of Pink Pills. Mr. Frank, who is 25 years of age, is a Russian by birth, exceedingly intelligent, speaks several languages fluently, and is now apparently in good health. "My illness came about in a peculiar way," said Mr. Frank. "Up to three years ago I was in the best of health. About that time while in Glasgow, Scotland, where I was employed as a clerk in a hotel, and while waiting on the Clyde, a storm came up, and I had a pretty rough time of it for a while. I evidently must have injured myself internally, although I felt nothing wrong at the time. On my way home, however, I felt helpless on the street, and had to be conveyed home in a cab, as my legs were utterly unable to hold me. I was confined to bed for several days in the same helpless condition, when I rallied, but found that my urine was of a strange reddish hue. I called

on a physician, who prescribed, but did me no good. I then called on Sir George McLeod, M.D., who also prescribed and advised me to go to the hospital. I was averse to doing this, and he advised me to try a change of climate telling me that my bladder was affected. I acted on his suggestion and went to the hospital. I did not do anything for about a year, as I wished to get cured. All this time my urine was tainted with blood, although I suffered no pain, but this abnormal condition was a source of continual anxiety. I finally went to the General Hospital, where the physician in charge advised me to stay which I did. After remaining there for five weeks with no benefit, a consultation of physicians was held and an operation suggested, to which I was willing to submit. The operation was performed. I was no better, my condition remaining absolutely unchanged. From this time I was continually trying medicines and physicians, but derived no benefit from anything or anyone. I was in despair, as the physicians who had operated on me could not decide as to my trouble. I visited the hospital again, and they said they would operate again; but I did not care to undergo a second and perhaps equally unsuccessful operation. Some physicians thought that it was a complication of the bladder, others that it was Bright's disease, but could not cure that strange bloody condition of my urine.

"Finally I went to work for the Bell Telephone Co., some two years ago, where I worked myself up to my present position. But I was in a state of constant anxiety, as I felt myself getting weaker and weaker, and was listless and sleepy and weak in the legs. I was also pale and I looked, no doubt, owing to loss of blood. From a naturally cheerful man I became morose, and gave up all hopes of ultimate recovery. One Saturday, some months ago, while walking along Bloor street, having seen the advertisement of Dr. Williams' Pink Pills in the Montreal Herald I stopped at John T. Lyons' drug store, and bought a box. I had tried so many medicines that I said to myself, 'If you don't cure me I can't be any worse off than before.' After taking the first box I felt stronger and more cheerful, although there was no change in the bloody condition of my urine. But I felt encouraged and got three more boxes, determined to make a thorough trial of Pink Pills. After I had finished the second box I found my urine was getting clearer, so I continued the use of the pills, taking two after each meal. When I had finished the third box my urine was quite clear for the first time in three years. I was delighted, and continued taking the pills until I had gained a healthy weight, and now I am well and have had no recurrence of the trouble, and as you can see, the flush of health shows itself in my face. To think that I was cured by the use of Dr. Williams' Pink Pills after trying a number of physicians and undergoing an operation in vain is a puzzle to me, and I am sorry that I did not know about this grand medicine before. I would have willingly given \$200 or \$300 to have been guaranteed a cure by anyone."

"I am willing," said Mr. Frank, in conclusion, "to see anyone who wishes to verify this statement, as I consider it my duty to my fellow-men to make known the truth to the world. I have been so grateful to the marvellous cure their medicine has effected. I have come to the conclusion that Pink Pills are the best medicine in existence, and I think everyone should try them."

THE PEARL OF GREAT PRICE

To women is beauty. Beauty the key that unlocks every door, commands deference inspires homage. But beauty of face cannot satisfy unless accompanied by beauty of body, and this is the charm. Fine teeth, sweet breath, rippling laughter—these are the graces that always go together. Ivory skin, delicate complexion, and a smile that removes discoloration and the tetter from the teeth, and renders the breath as fragrant as flowers.

IN YOUR BLOOD

Is the cause of that tired, languid feeling which afflicts you at this season. The blood is impure and has become thin and poor. That is why you have no strength, no appetite, cannot sleep. Purify your blood with Hood's Sarsaparil, which will give you an appetite, tone your stomach, and invigorate your nerves.

Hood's Pills are easy to take, easy in action and sure in effect. 25c.

Cold in the head—Nasal Balm gives instant relief; speedy cures. Never fails.

TO CHEAT THE MOTH.

There's a way to keep the Moth from spoiling your clothes.

It would seem as if an insect so long a household pest as the clothes moth would be well known by this time, yet it does not seem to be so. In the adult or perfect state it is not uncommon to see careful housewives who have every moth that chances to fly about the evening lamp without regard to size or appearance, while the delicate little moths are found on woodens that have been long in use. Clothes moths prefer darkness to light, and insects of this kind are not attracted to light.

The well-known moth is light brown in color on the front wings and silver gray on the hind wings. There is a small white worm with a light brown head; it makes no noise, but burrows in whatever it feeds upon, thus making damage.

Remedies: If clothing and the like can be enclosed in perfectly tight paper bags before moths begin to fly, and lay their eggs, they will be completely protected. Out of doors the moths appear the latter part of May and June, and during the month of June the campaign must be vigorously prosecuted. Articles found infested, or if suspected, may be sprinkled, or better sprayed with kerosene, and this will destroy even the eggs. If infested closets, drawers, etc., are thoroughly treated with kerosene in June, there will be little trouble during the remainder of the season. After spraying and airing articles may be safely wrapped in papers or in tightly closed bags. A few cents' worth of paper bags is worth far more than costly cedar chests or closets.

Furniture, carriages or other large articles in contact with wood are not likely to be attacked. If stored they should be covered with paper if this can be done so completely as to leave no opening for the ingress of moths. If this cannot be done then spraying with kerosene or blanching of carbon early in June, and again in a month or six weeks, should prevent damage. When more convenient, cotton cloth may be substituted for paper in covering carriages or other objects.

FAMOUS VOICES.

Forrest had a deep bass voice that seemed to come from the bottom of his chest. Bunyan had what was called a persuasive voice. He never scolded in his sermons.

Jeremy Taylor was always very much in earnest, and showed the fact in his voice. Lord Denham had a voice described by one of his contemporaries as "very smooth and oily."

Henry VIII. had a voice so grave that it earned for him the sobriquet of "Bluff King Hal."

Garfield had an exceedingly flexible voice and could mimic anyone he ever heard speak.

The Duke of Marlborough had a voice that, it was said, he could be heard above the roar of artillery.

John Bull Edwards had sharp strident tones that grated unpleasantly on the ear of all who heard him.

Old Kaiser Wilhelm had a soft voice, and spoke in a soothing tone that gave pleasure to all who heard him. Brignol was known as the "silver-voiced." His tones though not strong were exceedingly pure and sweet.

A Remarkable cure.—J. W. Jenkinson, Gifford—Spent between \$200 and \$300 in consulting Doctors; tried Dimes and all other remedies, and they all failed. One box of Chase's Catarrh Cure did me more good than all other remedies, in fact I consider myself cured with a 25 cent box at that.

HANDS AND ANKLES RAW.

For years I have been a great sufferer from itchy skin, and some of my exchanges, hands and ankles were literally raw. The first application of Dr. Chase's Ointment eased the burning itching sensation. One box and half a pint of the Ointment gave instant relief for chilblains. Henry A. Parmenter, St. Catharines, Ont.

NO HOME WITHOUT IT.

Miller's Emulsion of Cod Liver Oil should be emblazoned in letters of gold upon the altar of every household. It saves life when every other means for the cure of consumption and dire distress fails. It is the great life savor of the age. Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Croup, Hoarseness, Sore Throat, and all Lung Affections. In Big Bottles 50c and \$1. At W. G. Egar and W. J. Malley.

FORCE OF HABIT.

LONDON PEOPLE HAVE BECOME USED TO THE GREAT REMEDY.

London, Aug. 10.—The despatch from Detroit with reference to the cure from Bright's disease and blood poisoning of Mr. Langley, of this city, by the use of Dodd's Kidney Pills, has recalled the wonderful facts of the case to the citizens, among whom Mr. Langley is well known. It has reminded them that Mr. Langley, among other ailments, had been afflicted with Bright's disease, and that he had been cured by the use of the pills. The use of the pills however has become so universal here, and there has been so many instances of the cure, that it is almost a beneficial result that a similar case would hardly excite as much interest now as it did then when the medicine was less known.

A GLORIOUS AGE IN WHICH WE LIVE.

We ought, more frequently, to cast out thoughts upon the marvellous achievements of which we live. In the department of medicine alone there has been an advance all along the line, securing to mankind ever increasing exemption from pain and suffering.

Perhaps the discovery most important to that large class of sufferers known under the name of dyspepsia, is the discovery of the people all run down in nerve and muscular force—embodied in the preparation known to doctors as "Maltine with Cocoa Wine."

A builder of up and muscular tissues is thus—a source of buoyance and nerve—indeed, by a fluid galvanizing that speedily restores the system to its normal condition more deplorable than the first. No Maltine with Cocoa Wine gives the needed impetus to the flagging power of the body and mind; it strengthens the system, improves the assimilative functions, and sustains the vital forces until, by the impetus of this tonic, it brings about the equilibrium of functions is restored and health renewed. Maltine with Cocoa Wine is sold by all druggists.

THE MISSION FIELD IN FAR ALGOMA.

THE MISSIONARY'S COMPANION.

Mr. Geo. Baskin, missionary for the International Mission to Algoma and North-West, attributes his escape from severe illness timely through the use of Dr. Fowler's "I wish to say that Dr. Fowler's Extract of Wild Strawberry has been to me a wonderful soothing, speedy and efficient remedy. It has been my companion for several years during the labors and exposures of my missionary work in Algoma. When I am tired and young men have it in store against the time of need which so often comes without warning. Yours truly, GEO. BASKIN, Missionary.

HORTICULTURAL NOTES.

The best time to plant evergreens is just before the starting of the new growth.

Peach trees may be planted in the young apple orchard, if you live where peaches grow.

It is not foolish to grow apples and store them, and then let half of them rot for want of care? The loss of apples from neglect is a serious matter.

Much fruit is lost because there is not sufficient care to put nothing but sound fruit in the cellar. A stitch in time, in such matters, saves twice as much.

It is the cellar in which fruit is stored that it may not become too warm. Fruit requires a low temperature. Cool off the cellar by opening the windows.

We observe that some of our exchanges, though not denying the merits of sunflower culture, pool-pooh the idea. It is the old disposition to carry the grain with a stone in one end of the bag for ballast.

When grating, mix together four parts resin, two parts beeswax and one part beef tallow. It must be heated when used, but need not be worked with hand; apply with a stick. If the winds chill it too readily in the vessel, place a piece of glass over it.

GAINED A POUND EVERY DAY.

DYSPEPSIA AND CATARRH OF THE STOMACH CURED BY B. B. AFTER HOPES WERE NEARLY GIVEN UP.

GENTLEMEN,—For over three months I was very ill from what I believe was a malignant type of dyspepsia. At one time I consulted a physician who treated me with Dyspepsia without success. I then went to a specialist who diagnosed the case as Catarrh of the Stomach, his treatment also failed and I was getting worse every day. I could not rest at night and had to walk the floor to get any sleep. I failed from 105 pounds down to 135 pounds and about gave up in despair. I then tried Dr. Agnew's Bitters as a remedy for dyspepsia. The first bottle made a change for the better and I bought six more before being able to find myself getting better. Under the use of B. B. I gained a pound a day. I took 18 bottles in all and am now nearly back to my old weight. I recommend dyspepsia to try the old reliable B. B. that always cures. Wm. CAMPBELL, 115 Maple St., London, Ont.

CATARRH, RELIEVED IN 10 TO 60 MINUTES.

—One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Powder, diffuses the Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headaches, Sore Throat, Tonsillitis and Discharge. 60 cents. At W. G. Egar's.

ARE YOU DEAF?

Do you suffer from noise in the head? Then send 3 cent stamp and I will send a valuable treatise containing full particulars for home cure of deafness comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

Have you ever had in the morning what is fancifully called a "dark brown taste" in the mouth? If so, it is the effect of a deranged stomach and liver, the best remedy for which is a dose of Ayer's Pills, together with a little discretion as to diet and mode of living.

You cannot say that you have tried everything for your rheumatism, until you have taken Ayer's Pills. Hundreds have been cured as a result of the use of these pills alone. They are sold in every establishment at the World's Fair as a standard cathartic.

The Post Office Department has found it necessary to issue instructions to postmasters in order to correct a very common misapprehension in regard to the postage on open or unsealed letters. The rule is that a letter which has been left open is not on that account entitled to any reduction in postage. A letter or any communication of writing serving the purpose of one, must be prepaid at letter rate, whether the envelope containing it is open or closed; and if any letter goes forward insufficiently prepaid, the postmaster at the receiving office is charged to be careful to collect double the deficient postage on delivery.

Messrs. Phillips & Richardson, writing to the Rathbun Company from Portage la Prairie, under date of Aug. 15, state that there had been no frost in Manitoba up to that time. Some people get alarmed even when the thermometer stands at 50. The lowest recorded temperature for six weeks was 48. At that time a great deal of cutting had been done in southern Manitoba. Very little had been done in the section but it was expected that the harvest would be in full swing the following week, the weather being perfect for sowing the grain. They stated that the crop was magnificent everywhere and that its removal by the C. P. R. would be a difficult problem.

Burton's New Sensation.
George Burton's New Sensation is making a grand triumphal progress through the Western peninsula of Ontario. The great pavilion is crowded to excess and Mr. Burton has been frequently asked to give returns dates. The press notices are of a most flattering character and it is evident that the New Sensation has succeeded in gaining the popular heart to an extent not often vouchsafed to travelling companies. The members of the company are enjoying good health and are naturally very much elated by their success. The New Sensation appeared yesterday at Cayuga, Haldimand.

Shannonville Fair.
Now that the Marysville picnic is over the next great event to be looked forward to in the district is the annual fair of the Tyendineage Agricultural Society, which will be held at Shannonville on Saturday, September 25th. The directors are confident of their ability to make this event one of more than ordinary merit. The prize list is very large and has been carefully arranged so as to ensure lively competition. There will be special prices for speeding in the address. A. Macfarlane, the secretary, Melrose P. O.

Visiting Country Friends.
On Wednesday evening a large party of young people drove out in the direction of Emory Hill in response to an invitation from a farmer who asked them to bring along thirty or forty—the more the merrier. There were about fifteen in the party and as they approached the house they commenced singing and cheer in their exuberance of spirits. They were completely taken back when their anticipated host said that if they could not make less noise they had better not come at all. They took this as a hint that they were not welcome and resolved on an immediate change in the programme. They accordingly proceeded to the residence of Mr. Martin where they were cordially welcomed and spent a most enjoyable evening. All's well that ends well.

A GREAT WATERWAY.

The great lakes are, perhaps, the most distinctive feature of the American continent. They occupy an elevated plateau, which is, in fact, the base of the vast expanse of land which spreads out between the Alleghenies and the Rocky mountains. They are nearly 100,000 square miles of our national territory, and contain more than one half of all the fresh water on the globe.

Lake Superior is 603 feet above the level of the sea. Lake Erie is thirteen feet below the level of Huron and Ontario by the great outlet and rapids of Niagara is brought to a still lower descent of 33 feet. The river—or, more properly speaking, the strait of Sault Ste. Marie is a series of channels winding among innumerable islands. Some of these, as St. Joseph and Drummond, cover many square miles. They line the whole northern coast of Lake Huron. The right that here lift their bold peaks from the waves are the primitive rocks or primary rocks of Canada, which Agassiz declared: "The new world is the old world. Here was the first land, the first water, the first life; here was the first shore washed by the ocean that enveloped all the earth before it was divided into continents."

The Detroit river—the strait between Lakes Erie and Huron—was named by the first missionaries, who were the first white men to set foot in this region—is one of the noblest straits of the world. From Windmill Point Light Lake Ste. Claire to the Point Light Lake Erie, it flows a distance of twenty-seven miles, 1,515 yards. Its greatest width is three miles, and its average width is one mile. The average depth is thirty-four feet. The Detroit river is a natural drain, or channel, of 82,000 square miles of lake surface and of 125,000 square miles of land, thus rivaling the Ohio which is more than forty times as long. The mean current of the Detroit is 1.97 miles an hour. Such is the rapid description of the epitome of the greatest chain of natural waterways in the world.

A FAMILY RE-UNION.

Mrs. Owen Roblin, Amherstburg, accompanied by her daughter, Mrs. Webb, and her grandsons, W. H. C. Roblin, paid a visit to her sister, Mrs. D. McMillen, Pictou, on the 14th inst. Although Mrs. Roblin is in her eighty-fifth year she was not specially fatigued by the drive of eighteen miles.

Mrs. Roblin, Mrs. McMillen and their only living brother, the venerable Roger B. Conger, enjoyed meeting each other very much. Mrs. McMillen is in her eighty-third year, and Mr. Conger in his eighty-ninth year. The three are the children of Stephen Conger, who died in 1827 and was active and prominent as an early settler in Pictou. Edward at the close of the last century. Old records in the possession of the family allow that Stephen was the first Conger to settle in Pictou on July 14th, 1833. Thus in this family the latter parts of the two centuries are linked together.

Owen Roblin is still living at eighty-nine, but was too feeble to make his visit to Pictou with his wife.—Pictou Gazette.

EDUCATIONAL REGULATIONS.

The following regulations as to candidates for junior and senior leaving examinations are in force from the 1st of September, 1895.

It was generally understood that the new regulations would be put in force at the opening of colleges, which is the first of September, the subject is prescribed therefor under the regulations of 1893, and as defined in the regulations of 1895. For candidates for a junior leaving certificate, the subject is prescribed for Form III under the regulations of 1895.

Candidates who have failed at the junior leaving examination of 1895, or a preceding year, but have passed in English grammar and history, or in mathematics, or in science, or in physical science, shall, on application to the Education Department, be entitled to a certificate of having passed Part I of the second form examination, and may write for a junior or senior leaving certificate under the regulations of 1895.

Candidates who held commercial certificates obtained under the regulations of 1893, and who present themselves at the examination of 1895 or 1897, shall be exempt from the first form examination.

HOW TO PUNCTURE VALKYRIE.

There has been much talk and many opinions about the word "Valkyrie" the name of Lord Dunsany's epic challenger as to pronunciation and meaning. Mr. Dunsany, G. E. brought a dictionary to the table which stated that the word was pronounced as Val-ki-ri-eh not Val-ki-ri-eh as it is generally pronounced. "Val-ki-ri-eh" is a Scandinavian word and means "northern goddess or destiny of the battle field."

THE MOST remarkable cures on record have been accomplished by Hood's Sarsaparilla. It is unequalled for all BLOOD DISEASES.

CATARH RELIEVED IN 10 TO 60 MINUTES.

One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Powder, diffuses the Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsillitis and Deafness. 60 cents. At W. G. Eggar's.

Gough.

THE WONDERFUL CHEAP MAN.

Always Good at GOUGH'S.

They Came, They Bought, as They Never Bought Before!

And still they come, and still they buy. Busy yesterday—busier to-morrow. We have to "hustle," trying to get every customer served quickly and properly. Straw Hats, Summer Shirts, Summer Underwear, Summer Clothing and Summer Neckwear were most in demand. But we have the goods this season—as we always have—and we are selling at very close prices—as we always do. That's why we have your trade. We want your trade, and we know that the right way to get and keep it is to have a good variety of everything and to sell cheap—cheaper than anybody else.

Our Summer Campaign.

Our summer campaign for business is carried on on business principles—keeping the best clothing for the best money. We are just far enough away from Farkville to consider living a pleasure. Merchants all over Canada are trying to figure out where we get goods to sell so cheap. Sometimes they club together and petition manufacturers not to sell us, and sometimes they swear the goods are not as represented, and sometimes they buy the goods to sell again.

Success hasn't come by chance. This business has grown because you wanted it to. Your encouragement gave us the right to go ahead.

Men's Summer Clothing.

We have sold an immense quantity of clothing thus far. Come and see what we can sell you in Light Summer Coats and Cool Vests, Sporting, Camping and Vacation Suits, etc.

200 Men's Suits in Sack Tweeds have been marked \$8.45 and \$9.50, but they have been knifed and 5 dollars takes any. Fine English unshrinkable flannel coats and vests, striped and check, all sizes, \$3.

Fine French Lustre Coats and vests in stripes and plain effects, various shades, \$2.50.

Fast Black Lustre Coats, all sizes, silk finish, \$1.75.

Blazer Coats, 75c. \$1.50, \$2.

German Lustre Coat in black or grey, all shades, \$1.

Men's White Duck Trousers, the sort American Tourists are wearing, two qualities, \$1.40 and \$1.75. Shapely and swell.

Men's White Duck and Pique Vests, pearl detachable buttons, all sizes, 75c.

10 doz. English Cashmere and silk Fancy Vests, washable, mother-of-pearl detachable buttons, worth \$1.50 for \$1 each.

Boys' Summer Suits.

Boys Galatea Suits, fast colors, all sizes, sailor collar, 90c.

Boys' Twaed Coats, 75c—a snap!

Boys' Blazer Pants, 50c and 75c.

We like to talk Boys' Clothing to parents—especially to mothers. We like to draw their attention not only to our low prices, but we have something even more important—namely, the style and finish and the strong wearing qualities of our Boys' Suits:

Boys' Washable Sailor Suits, \$1.25, \$1.50 and \$1.75.

Boys' Twaed Suits, \$1.50, \$1.75, \$2 and \$2.50.

Boys' 3-piece Suits, \$3, \$3.75 and \$4.

Youths' Suits, \$4.50, \$5 and \$5.50.

Straw Hats.

We welcome comparison. Does anybody know of a larger Hat Store in Canada than ours? Large and roomy enough to enable us to serve great crowds with ease. Our Hats are not all in the windows—they are on the ground floor—thousands to choose from at prices lower than ever. Light weight Felt Hats in very many shapes, just the Hat for present wear. Hats and Caps for touring or a bicycle. Any kind you want for boys or children.

Like Mary Ann, we have "followers," but imitation is sincerest flattery.

Tourists, the correct thing, start at 60c; Fedoras, all fur-felt, as low as \$1; Derbys, all colors, right shape, \$2; Stanley Hat, sole agents, \$2.50; Caps, Varsity, all colors, 15c.

NEW SPECIES OF WILLOW.

A Discovery of Interest to All Students of Agriculture.

Charles S. Sargent, Professor of Arboriculture at Harvard, is now about completing the sixth volume of his "Willows of North America." In this volume he treats exhaustively of the many varieties of the willow which abound in all portions of the United States. He recently made a trip to Jackson County, Mo., in search of a new species of willow and returned with a complete description of a variety of the tree never before discovered. It will occupy a prominent place in his volume on the North American willows. He considers the long trip well repaid and will give to the students of trees another topic for discussion.

Many years ago the deep, alluvial bottom of the Missouri River in Jackson County, has been noted for the heavy growth of the willow which flourishes at the edge of the water and defied the action of the farmer. Among these trees was a giant willow, towering above the rest and which first attracted the attention of Mr. F. B. Bush, who is in the service of the Missouri Botanical Garden at St. Louis and whose home is at Independence, Mo. He made a study of it and came to the conclusion that it was of a different species from any other willow he had ever examined. Mr. Bush is a keen student of the willow, and, knowing that he was dealing with a volume in which the willow would take a prominent place, Prof. Sargent's attention to his discovery. The result was the trip to Missouri.

Prof. Sargent stopped at the St. Louis Botanical Garden, and was accompanied to Independence by Prof. William Trelease, of that institution, who is also interested in trees and their culture, and with Prof. Bush, of Independence, they made their tour.

They found the new tree and at once knew it to be different from any they had ever seen. They pronounced it a local species, as it has not been found in any other place but in Jackson County, Mo. It is along the river bottom. It has heretofore been confused with Diamond Willow (Salix cordata Vestita) of Dakota and Western Nebraska, and this is probably the reason it has never been catalogued before.

Prof. Sargent was equipped with a camera, and he photographed this new species with Mr. Bush standing beside it, to show the comparative size and height. On either side of the willow are enormous white trunks shown in great contrast, and in the background are smaller trees of this new species of willow.

This was the only picture taken of the tree, and the leaves were at this time not developed to an extent which would give an idea of their peculiarities. Mr. Bush, however, was commissioned to ascertain and press the full-grown leaf and to also secure a cross section of the tree, and the forthcoming sixth volume of Prof. Sargent will contain all these data.

This nondescript species of willow may be recognized at once by its straight upright, slender trunk, and by the dark, almost black, bark of the trunk. The bark is thick, dark and twisted and branches which are densely tomentose, while other species of willow have slender, smooth and shining twigs.

The Northwestern Lumberman notes that Baron Mieling, a cultured and wealthy gentleman of Germany, was in Chicago the past spring, and when asked by a reporter what he did not like about the United States replied: "The destruction of your forests. In every other way the United States is the most favored nation the world has ever seen, the people of the United States have been blind to the consequences of the wholesale destruction of their timber lands. The matter does not interest the public as it should, in some states now the original forests have already been exterminated, and practically nothing is being done in the way of planting the trees which the American will find themselves obliged before many years to use for fuel, such as Germany has had for years. Already you have practically exterminated several varieties of the most valuable woods. Let me tell you this: Within 50 years you will be importing American woods from Germany. For years we have been systematically planting American walnut, maple, cherry and other trees. When your supply is exhausted we can supply you. I now have growing on my estate in Hesse-Thuringen thousands of American trees, which I secured mainly through the kindness of my friend, Mr. Forster, who is the head of your forestry division of the agricultural department. Pardon me for saying that the people of the United States are very ungrateful. God gave to them the grandest trees on the face of the earth—the giant sequoia of the Yosemite Valley. It is the people of the United States who have been guilty of a number of trees growing in Germany which I sent from California. They are about four feet high, and I am very proud of them. You have not learned to love the trees for themselves, we do. To the average American, the first question about a new tree is: How many feet of lumber can I get out of it? It is often those that others use us more clearly than we use ourselves. We may not fully appreciate the truth of Baron Mieling's remarks, but our children will experience it, and wonder why their parents are so ungrateful to the material which is so slowly produced.

Protecting Melons from Cut Worms.

Cut worms have proved so destructive to melons that growers are recommended to plant little, shallowly in the ground, than late and leave the land bare during the winter. Then, in the early spring, as soon as the grass begins to come up in the spring, they should be planted here and there throughout the field which is to be planted to melons in bunches of grass or any other weeds, and the cut worms will be lured by the smell of the weeds and be killed by the action of the soil.

Such of the cut worms as have been found in the ground should be killed by the action of the soil.

A PREMIUM ON HONESTY.

A Broker's Forgetfulness Leads to the Foundation of an "Honesty Fund."

Late one afternoon the past winter the manager of a brokerage house in New York was preparing to go home, and had received a letter from a prospective client, to use for car fare when he discovered that he had left his cuffs in the wardrobe in an adjoining room. He closed the door on the top of his desk but was delayed on his return by a clerk on a matter of business. As a result the manager remained on his desk after his departure.

He remembered the circumstances, however, when he reached his home, and he concluded that the piece was lost. Much to his great surprise, though he found the

The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,—
Please send me samples of Wall Paper suitable for (mention rooms) and not to exceed (mention price) per single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, and which we positively guarantee better, and lower in price than any other house in Canada. The samples will be large and in sets comprising Wall Paper and Border, and will enable you to make a selection for an entire house as you sit by your own fireside and have absolutely no responsibility in the matter—you simply write the postal as above and we do all the rest—send your samples enclosing order blanks, a guide "How to Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of the trouble and anxiety of Wall Paper shopping. We positively guarantee satisfaction. Can we say more?

Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

GREYNA.

Harvesting is nearly finished, the crop when gathered seems to be ahead of the calculations, those that have threshed are still better pleased.

Timothy and Ben Berimshaw have rented the farm lately occupied by James Hambley.

Last Friday the Sunday school held their annual picnic in Edward Randall's grove. The day was a little dull during the morning, but the afternoon turned out fine. They were met by the Hay Bay, Sunday school and before two o'clock the grounds had the appearance of a real picnic.

The young men were engaged at these balls, the young ladies pitching quoits, others with croquet, further down there were swings going in full blast. Mr. Stratten given by the teachers for races, and about five o'clock the committee called the entire lot on the ground, the children were sent el to first, then visitors &c., after during justice to the good things brought there, they began to pick up the balance and remove the cloth, and sang God Save the Queen, the parties broke up to leave for home with the intention of making this a yearly gathering. All were so well pleased to have such a social time.

THE PASTOR'S WIFE.

AN INTERESTING INTERVIEW WITH MRS. (REV.) F. B. STRATTON.

THREATENED WITH PARALYSIS—WEAK, EMACIATED AND UNABLE TO STAND FATIGUE—PINK PILLS RESTORE HER HEALTH.

The Rev. F. B. Stratton, of Selby, is one of the best known ministers in Bay of Quinte counties, and who has been in the Presidency. During the two years Mr. Stratton has been stationed at Selby, both he and Mrs. Stratton have won hosts of disciples among the people, and have been and sincere Christian work. Some time ago Mrs. Stratton was attacked with partial paralysis, and her restoration having been secured, she has been the subject of Dr. Williams' Pink Pills, a reporter of the *Beaver* was sent to interview her. In reply to the question, "What is the cause of this?" she had been greatly benefited by Dr. Williams' Pink Pills and was perfectly willing to give her experience that those similarly afflicted might be benefited. Mrs. Stratton said that before moving to Selby she had been greatly troubled by a numbness coming over her limbs and arms (partial paralysis) which, when she moved, felt as though hundreds of needles were sticking in the flesh. For over a year she had been troubled in this way, with occasionally a dizzy spell. She was becoming emaciated and easily fatigued and was unable to get sleep from this cause. The trouble seemed to get worse at night time. Mr. Stratton had become greatly alarmed at her bad state of health, and it was feared that complete paralysis would ensue as Mrs. Stratton's mother, the late Mrs. Weaver, of Ilegersoll, had been similarly stricken, at about the same age. Knowing that a young lady in Trenton where Mr. Stratton had been previously stationed, who had been cured by Dr. Williams' Pink Pills, he decided to give her a fair trial. When Mrs. Stratton began using the Pink Pills she was very thin and her system badly run down, but after taking the pills a few days, all ailments were dispelled, and she found her health and strength renewed and her weight increased. Mrs. Stratton said that she was now more healthy, robust, and younger looking lady in seldom seen at that age.

In reply to the reporter's inquiry as to what Pink Pills had done for his wife, Mr. Stratton said, "Look at her, look at her, doesn't she show it, and the reporter could not but admit the truth of the statement.

These pills are a positive cure for all troubles arising from a vitiated condition of the blood or a shattered nervous system. Sold by all dealers or by mail from the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or 3 boxes for \$2.50. There are numerous imitations and substitutes against which the public is cautioned.

COCA AND ITS USES.

We are wont to associate this new drug of marvelous medicinal properties with the grateful beverage of the breakfast table, and the quietude of the social and domestic properties. Coca is a most beneficial gift to the sick and suffering, as is attested by its rapid rise from obscurity and its reliance now placed upon it by the most eminent practitioners in Europe and America.

Nothing with Coca Wine is the most reliable form in which the full medicinal value of coca may be obtained and the striking results have been shown in nervous exhaustion, debility, weakness, or palpitation of the heart, warrant the high appreciation of its merits expressed by medical men who have used it in their practice. Malaise with Coca Wine is not a patent medicine, but a highly specialized pharmaceutical preparation to cure disease in the only way disease can be cured, viz., by helping nature. This is done by aiding the system to get rid of the morbid elements to the nervous system. Malaise with Coca Wine is worthy of your confidence. Sold by all druggists.

Ivorine, the new dentifrice, dispels all other preparations from use, because it does good work. Discoloration and roughness are speedily removed and the teeth white and well polished. Ivorine is fragrant and refreshing, preservative to sound teeth and decay retarding. Ivorine removes tartar and discolorations and makes the teeth beautifully white.

THE THIMBLE.

A thimble was originally a thumb-bell, because it was worn on the thumb, as nail-stones wear their thimbles. It is a Dutch invention, and in 1854, in Amsterdam, the bi-centennial of the thimble was celebrated with a good deal of formality. This very valuable addition to the world's work was first made by a goldsmith named Nicholas Van Benschoten, the ancestor of the American family of Van Benschotens.

It may further interest you to know that the first thimble made was presented in 1654 to Anna van Wely, the second wife of a Hollander named John Lofing, who opened a thimble-manufacture at Lelington.

PATRIOTIC TO THE LAST.

A couple of Englishmen en route from Rome, were joined by an American, whose blatant patriotism first amused, then bored the Englishmen, and finally made them rich, or rare, there was always something in America to elope it, according to our countryman. The Englishmen determined to see Yankee a lesson, and taking advantage of the chronic thirst of their companion, they piled him with all the liquor he could imbibe, and then proposed a visit to the Catacombs. Before they reached their destination they were obliged to guide his errand steps by darkness, and at length overcame by drowsiness, the American begged to be left alone to lie down at his ease. When sounds of a discharge of musketry interrupted the intervals from the nose of the prostrate patriot, his companions concluded that he was dreaming of the Fourth of July, and would therefore be quiet of anything nearer at hand. Proceeding a short, purloined from their hotel and until now carefully concealed, they spread the electric light a mummy in its folds, and then left him to "do" the Catacombs on his own account.

Returning on his way they found him still sleeping. One of them drew from under his coat a tin-flashed, and blew upon it a blast just sufficient to grant and produce the electric light a mummy in its folds, and then left him to "do" the Catacombs on his own account.

A YACHTING DISASTER.

A small pleasure boat capsized at Buffalo, N. Y., on Sunday.

A dispatch from Buffalo says:—By the capsizing of the small pleasure yacht, Tuesday evening, seven men of the thirteen on board were drowned.

That there was not a greater loss of life is due to the nearness of the tug E. C. Mayhew and the quickness of the life saving crew in getting to the scene.

The party on board the yacht were members of the East Buffalo stock yards, employees who had spent the day down the river on an annual outing. There were thirteen of them in the boat.

A strong wind had been blowing, and when the open water of the lake was reached, just near the city, on the trip homeward, the small craft encountered waves she was ill able to withstand.

There was no real danger, however, so long as the boat was kept head up to the waves, but when a turn was made to enter the harbour heavy seas struck her on the side. Before the boat had time to turn, she was rolled over.

These another swept over her, completely engulfing the boat and all on board. Most of the life preservers on board were lost, and easily grabbed by those who had an opportunity or presence of mind to do so.

The skylight over the engine was floated off as the boat sank, and this was seized by some of the men. Two men grabbed one life preserver and went down. The tug Mayhew happened to be passing near the scene of the accident, and rescued four of the men from the water.

Two members of the life-saving service were also near by, grappling for the body of Chas. Gilling, who was drowned on Sunday, and they succeeded in saving two half-drowned members of the excursion party. These six were all who were rescued, though search for the others was continued up to a late hour.

IN AN ALMOST CONSTANT SLEEP.

Strange Case of Little Maggie Lay, of Grand Rapids, Mich.

The case of Maggie Lay, a child of five, is of more than usual interest, and is attracting the attention of the medical profession.

Maggie is 13 years old, and is of a fractious, in appearance, and ordinarily bright. For nine weeks she has done little else than to sleep.

She drops off to sleep while playing with her dolls and even while eating, and the sleep continues from twenty to twenty-five hours a day. She can be aroused, and when awake answers questions with intelligence. She seems to know what is going on, but unless her attention is constantly kept fixed she will begin to nod and will be fast asleep before the visitor knows it.

The child eats as heartily as children of her age generally do and her bodily health is good, but she seems to slumber over everything else.

She has been known to fall asleep while riding a child's bicycle in front of the house.

There is no sign of improvement and her waking spells are of longer duration and more frequent.

She is a drowsy state, and the doctors who are attending her do not seem able to undertake it.

The girl's father is insane and has for a long time been confined in the Kalamazoo asylum.

It is thought that the mental trait has descended to her and that the sleep is the first sign of a mental disease.

She had a similar attack a year ago, but it lasted only nine days, while upon the present occasion her sleep has continued as many weeks.

Her New Bonnet.

Look here, Elizabeth, he repeated, and he aimed his finger at the top of her head.

I've paid all the damned millinery bills I'm going to pay. Every night when I come home I find a new dupe, Napoleon, Little Corporal or some other confounded headgear lying in wait for my pocketbook.

Why, what in the world are you talking about, dear?

About that new Dutch bonnet. That's what I and Mr. Poggins aimed aimed his finger at the innocent cause of his wrath.

You heard brute! I gaped Mrs. Boggins. That's not a Dutch bonnet at all.

That's my new plate with a tooth on each side.

Persecution of Methodists in Mexico.

A despatch from the City of Mexico says:—The Methodist mission authorities here complain that in the town of Tzapan, Tepic, State of Jalisco, the municipal authorities are persecuting Methodist converts.

They have ordered the school teachers, and have ordered a new law named Lopez, and her two sons, the mother having withdrawn her children from the municipal school to place them in a private one.

A convert named Joaquin Lima, who advised the town authorities to look up the Methodist schoolmaster, named Carillo, on a charge of not having paid proper revenue stamps on some of his papers.

The Methodist authorities here have lodged complaint with the Governor of the State of Jalisco.

YOU MUST BEWARE OF IT.

POISON IVY FINDS A GREAT MANY VICTIMS JUST NOW.

The Strength of the Poison Varies With the Thriftiness of the Plant—Hemlock, suggested for Those Who Only Find They Have Touched It When the Itching Begins.

I have seen poison ivy covering hundreds of acres on our Atlantic islands and sand dunes, where it was almost the only inhabitant of the drifting sand—so sparse and weak as to hardly deserve the name of vegetation, says a writer in Garden and Forest.

It was my fortune to live for some time with a colony of sailors upon one of our western islands, where this ivy composed, perhaps, a third of all the woody vegetation.

Though then highly susceptible to the poison, I yet passed daily on foot through long stretches of it, and even lived in it and though I took no precaution whatever I did not feel the slightest irritation from it.

It was not until I was conversing with a man who told them of its poisonous properties, for they had never dreamed of such a fact, nor had any of them ever been troubled by the plant.

From its enervated appearance I could easily imagine that its desert surroundings had more or less tamed its influence. I, such was the case we may infer, perhaps, the strength of the poison varies to some extent with the thriftiness of the plant.

VARIES WITH THE SEASON.

The poison of the ivy, though always present, probably, like all saps, varies slightly in activity with the season, though perhaps the most active time is in the spring, when it is in the prime of its growth, and when the sap is in the process of rising.

It is more easily irritated than the dry, firm skin and contracted pores of the exposed parts in winter.

Aside from the usual form, all parts of the poison ivy are poisonous at all seasons, the root being by far the most virulent of all. I have seen a robust physician in the prime of health poisoned almost fatally, and rendered nearly helpless for many days, in spite of all medicines, simply by pulling the roots.

The total element seems to be volatile, and any part, when thoroughly dried, becomes wholly innocuous, but when cut with the ivy later will become dry, while the ivy stems are still fresh and contain poison.

In this condition it is drawn to the bars, where the slowly evaporated poison is absorbed by the surrounding air, which thus becomes, in a degree, as poisonous as the ivy itself. Through this means I have known men severely poisoned while taking out the hay in winter.

It is owing to this volatilization of the juices that smoke of burning ivy or of brush heap containing it ranks next to the root in the virulence of its poison.

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Cud, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. I have used it repeatedly and found it of good effect upon their children."

Dr. G. C. Osceola, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quick nostrums which are destroying the lives of our children by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchell, Conway, Ar.

THE CENTAUR COMPANY, 71 MURRAY STREET, NEW YORK CITY.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to man."

H. A. Acheson, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our

Weak and Nervous

Whenever the body has been weakened by disease, it should be brought back to its normal condition by Hood's Sarsaparilla. Read this:

"About two years ago I suffered with a very severe attack of inflammation of the bowels. When I began to recover I was in a very weak and nervous condition, and suffered intensely with neuralgia pains in my head, which caused loss of sleep, and having no appetite, I

Became Very Thin and weak. Fortunately a friend who had used Hood's Sarsaparilla with great benefit, kindly recommended me to try it. I did so and after a few days I began to feel better, and in a very short time I was able to eat and sleep as usual. I would not be without Hood's Sarsaparilla in my house for anything." Wm. J. Kane, 245 Manning Ave., Toronto, Ont.

FACTS IN A FEW WORDS.

The "yellow jacket," about which so much has been heard of late, is a rather rare, than a jack. It is made of yellow wax, has no sleeves, fits the wearer closely, and reaches to the thighs. It is fastened on the back by a button, and has embroidered on the bosom the royal dragon of China. There are but half a dozen men in the empire who are entitled to wear it.

An article in the London Zoological Gardens got hold of an attendant's chronometer watch five days ago and the striking of the quarter and half hours, which continued for three hours, appeared to excite the curiosity and created a great deal of amusement among the spectators.

Orders have been issued in New York for the arrest of a bullet-proof coat from wearing their coats while marksmen are testing them. New York people have recalled the accidental killing of Annie Van Belmont by Frank Pray, which occurred several years ago.

An ancient bull dug out of the ruins of an Indian city in Alabama, which was pronounced by local experts to contain gold worth \$10,000. After the Denver mint worked on it for forty-eight hours the discoverer was handed a solid brass brick worth \$4.25.

The human system can endure heat of 212 degrees, the boiling point of water, because the skin is a bad conductor and because the perspiration cools the body. Men have withstood without injury a heat of 300 degrees for several minutes.

A negro had a stroke of luck while fishing in the Flint river, near Albany. His line caught a large fish, which he pulled up, and found it was a lady's gold necklace, which had evidently lain at the bottom of the river for many years.

A policeman in Jersey City, finding a thief was getting away from him, jumped aboard a trolley car, impressing it with the city's service, gave chase with it, and finally overhauled and captured the man.

Wine made from potatoes is the discovery recently made by a French chemist. He always removes the eyes from the potato before he begins work, as the sprouts in a secret one.

A loud clap of thunder will cause a lobster to drop his claws, a crowfish his fins, a woman to scream, a cat to become deaf, a pig's nose to bleed, and milk to turn.

Sturdy thy reptiles crawled out of the body of one grater snail cut in two by a train at Washington, Mo. Several alligators died from the singular virus.
